[No explosives plan to be used.](#)

What commodity or commodities are being sought in the work program?

[Au](#)

How will you be transporting personnel to the exploration site for all activities? Describe in detail.

[Main access to the property by pickup truck with further access gained by ATV.](#)

How will you be mobilizing/demobilizing equipment to and from the exploration site for all activities? Describe in detail.

[Equipment will be mobilized/demobilized from site using pickup trucks, trailers, and ATVs.](#)

What type of equipment will you be using for all of the early exploration activities?

[Chainsaw - Axes - Handheld GPS](#)

[High powered generator and Induced Polarization /Resistivity Receiver](#)

[Drill rig, bulldozer, flatbed trucks](#)

What type of drilling will take place? (e.g. core drilling, reverse circulation)

Exploration activities would consist of diamond core drilling with NQ holes of core diameter 75.7mm Outside diameter. Drill holes will average 350m depth. More pads shown then will be drilled as location subject to change with as additional exploration data discovered. To prevent shut down of drill program to wait on additional permits WHM has proposed much more holes then needed to assure that there is flexible to drill in the area required as exploration discovers additional targets. WHM is trying to predict the extend of the Gold mineralization and assure their are drill permits to cover the full area.

Do you anticipate the removal of the drill casing?

Yes  No

If yes, when will you be removing it?

Immediately  3 to 6 months  6 to 12 months  1 to 2 years
