The Ministry of Mines (MINES) invites you to comment on the Prace Mine Rehabilitation Project, located in Vankoughnet Township, approximately 25 km north of Sault Ste. Marie, Ontario.

The mine features an adit, raise, a stope, and an open cut. There are two crown pillars associated with the underground workings, one located west of the stope and open cut and another related to the adit. The purpose of the project is to rehabilitate the mine hazards at the Prace Mine property to eliminate the risk to the public. All remaining mining debris will be removed, and disturbed areas allowed to revegetate and return to pre-disturbance condition.

This proposed Category B project is being carried out in accordance with the *Class Environmental Assessment for Ministry of Northern Development and Mines Activities under the Mining Act* (Class EA). You are invited to provide input and express any concerns about this proposed project. Comments must be received by **March 20, 2024**. For more information, or to submit comments on the project, please contact:
