
**Approval for Registration in the “Technical Standards Registry – Air Pollution”
(Industry Standard) Issued Pursuant to s.39(3) of O. Reg. 419/05 made under
the Environmental Protection Act, R.S.O. 1990, as amended**

REGISTRATION NUMBER: 303-24-393-rv0

Reference Number: 6407-C3TE7N

Issue Date: July 11, 2024

Applicant: GIP Construction and Materials Limited
20 Carlson Court
Toronto, Ontario
M9W 7K6

Contact person: John Mackay, VP Construction Materials & Tech Service

Site Location: 45 Van Kirk Drive
Brampton, Ontario
L7A 1A6

DEFINITIONS

For the purposes of this Approval,

“Facility” means the GIP Construction and Materials Limited operation located at 45 Van Kirk Drive, Brampton, Ontario;

“NAICS” has the same meaning as in section 1 of O. Reg. 419/05;

“Registered Contaminants” means contaminants listed in Appendix A; and

“O. Reg. 419/05” means Ontario Regulation 419/05: Air Pollution – Local Air Quality, made under the Environmental Protection Act as it may be amended from time to time.

REGISTRATION INFORMATION

You have applied in accordance with subsection 39(1)(a) of O. Reg. 419/05 for registration in the Ministry’s Technical Standards Registry – Air Pollution in respect of:

- i. Asphalt Mix – Industry Standard as set out in the Ministry Publication "Technical Standards to Manage Air Pollution", Version 7.0, October 27, 2020 (as amended);
- ii. the Facility; and
- iii. the Registered Contaminants.

GROUND FOR APPROVAL OF REGISTRATION

A. I, the Director, am satisfied that:

1. The applicant has submitted a completed application for registration dated June 8, 2021 signed by John Mackay, VP Construction Materials & Tech Service, GIP Construction and Materials Limited (formerly AECON Construction and Materials Limited) and this application was in a form approved by the Director.
2. The information submitted in the application is accurate, to the best of my knowledge.
3. The Asphalt Mix – Industry Standard applies to the Facility since it produces paving asphalt and is part of a class identified by the NAICS code 324121 (Asphalt paving mixture and block manufacturing).
4. The Asphalt Mix – Industry Standard applies to the Registered Contaminants.
5. The Asphalt Mix – Industry Standard contains requirements that relate to at least one source of contaminant in the Facility, namely, mixing structures and asphalt mix drag conveyors, storage silo transfer conveyors, and storage silo batchers.
6. There are no provisions in the Asphalt Mix – Industry Standard that deal with notification of and consultation with affected persons before making an application for registration.
7. There were no requirements to notify and consult affected persons imposed under subsection 39(5).
8. Any adverse effect that may be caused by discharges of the Registered Contaminants from the Facility into the air will be better prevented, eliminated or ameliorated if the Facility and the Registered Contaminants are registered to the Asphalt Mix – Industry Standard.
9. There is no other industry standard that applies to the Facility and the Registered Contaminants that, in my opinion, would be more appropriate.
10. Based on the public consultation conducted including a posting on the Environmental Registry under the Environmental Bill of Rights, I am of the opinion that there is no public interest reason sufficient to refuse approval of the application.

B. Based on the above conclusions and pursuant to the authority under subsection 39(3) of O. Reg. 419/05, I approve the registration of the Facility in the Ministry's Technical Standards Registry – Air Pollution with respect to the Registered Contaminants for the following industry standard:

- Asphalt Mix – Industry Standard as described in the Ministry Publication "Technical Standards to Manage Air Pollution", Version 7.0, October 27, 2020 (as amended)

DATED AT TORONTO this 11th day of July, 2024.

Dan McDonald, Director
Section 39, O. Reg. 419/05

cc: Jeff Burdon, Manager, Local Air Quality Permits, Air Policy and Programs Branch

Nancy Orpana, Manager(A), Air Approvals, Environmental Permissions Branch
Tina Dufresne, Manager, Halton-Peel District Office, Central Region, DWECD

APPENDIX A – Registered Contaminants

Benzo(a)pyrene, CAS# 50-32-8
