## 11. Servicing

### 11.1 Subject Lands

Indicate in a) and b) the proposed type of servicing for the subject land. Select the appropriate type of servicing from Table B. If servicing is private, please indicate the type of private servicing.

11.1 a) Indicate the proposed type of sewage disposal system – whether sewage disposal will be provided to the subject land by a publicly owned and operated sanitary sewage system, a privately owned and operated individual or communal septic system or other means? \*

PRIVATELY OWNED & OPERATED SEPTIC SYSTEM

11.1 b) Indicate the proposed type of water supply system – whether water will be provided to the subject land by a publicly owned and operated piped water system, a privately owned and operated individual or communal well, a lake or other water body or other means? \*

PRIVATELY OWNED WELL

### 11.2 Retained Lands

Indicate in a) and b) the proposed type of servicing for the retained lands. Select the appropriate type of servicing from Table B. If servicing is private, please indicate the type of private servicing.

11.2 a) Indicate the proposed type of sewage disposal system – whether sewage disposal will be provided to the retained land by a publicly owned and operated sanitary sewage system, a privately owned and operated individual or communal septic system or other means? \*

SAME AS ABOVE

11.2 b) Indicate the proposed type of water supply system – whether water will be provided to the retained land by a publicly owned and operated piped water system, a privately owned and operated individual or communal well, a lake or other water body or other means? \*

### 11.3 Hauled Sewage

If development is proposed on privately owned and operated individual or communal septic system, provide confirmation that there is adequate reserve sewage treatment capacity for hauled sewage (septage) resulting from the proposed development. See Table B below.

**Table B – Sewage Disposal and Water Supply**

	Type of Servicing	Reports/Information Needed
<b>Sewage Disposal</b>	a) Publicly owned and operated sanitary sewage system	Applicants must provide evidence in their application that there is municipal confirmation of sufficient uncommitted reserve sewage system capacity to service the development at the time of conditional consent.
	b) Public communal septic	Development generating effluent of more than 4,500 litres per day may need a servicing options study and hydrogeological report.
	c) Privately owned and operated individual septic system	If the requested change would permit development on individual or communal septic system and more than 4,500 litres of effluent would be produced per day as a result of the development being completed, a servicing options report and a hydrogeological report may be needed.  If proposal would produce effluent less than 4,500 litres per day, a hydrogeological report may be needed.
	d) Privately owned and operated communal septic system	If the requested change would permit development on individual or communal septic system and more than 4,500 litres of effluent would be produced per day as a result of the development being completed, a servicing options report and a hydrogeological report may be needed.  If proposal would produce effluent less than 4,500 litres per day, a hydrogeological report may be needed.
	e) Privy	Provide details on location and size of out-houses.
	f) Other	Please describe.
<b>Hauled Sewage</b>		If development is proposed on privately owned and operated individual or communal septic systems, applicant must provide evidence in the application showing either: i) municipal confirmation of sufficient uncommitted reserve sewage system capacity for treatment of septage resulting from the proposed development; OR ii) confirmation (i.e., letter) from a commercial enterprise (private provider) for hauled sewage (septage) indicating that capacity is available to accommodate the specific proposal.
<b>Water Supply</b>	a) Publicly owned and operated piped water system	Applicants must provide evidence in their application that there is municipal confirmation of sufficient reserve water system capacity to service the development at the time of conditional consent.
	b) Privately owned and operated individual well	Development on communal or individual well system may need a servicing options report and a hydrogeological report.  Non-residential development on communal well system may need a hydrogeological report.
	c) Privately owned and operated communal well	Development on communal or individual well system may need a servicing options report and a hydrogeological report.  Non-residential development on communal well system may need a hydrogeological report.
	d) Lake	A Permit to Take Water may be required. Contact your regional Municipal Services Office and the Ministry of Environment, Conservation and Parks office for guidance.
	e) Other water body	Please describe.
	f) Other means	Please describe.

## Notes

1. To facilitate review of the application, submit a letter from the municipality to show concurrence (or not) with the recommendations in the servicing options report.
2. Before undertaking a hydrogeological report, consult MMAH for advice given the location of the subject land.
3. Where communal services are proposed (water and/or sewage), ownership of these services must be assumed by the municipality or a public body through a signed letter of acceptance.
4. To facilitate review of the application, submit a letter from the local health unit indicating that the site is developable and could accommodate the proposal.
5. A building permit is required for septic systems under Part 8 of the Building Code. See Appendix A.

## 12. Access

### 12.1 The proposed road access would be by: \*

PUBLIC

**Note:** (See Appendix A for information on MTO Access Permits)
