

AMENDED ENVIRONMENTAL COMPLIANCE APPROVAL

NUMBER 3200-DF6TE3

Issue Date: June 5, 2025

CalClean, Inc.
1790 N. Case Street
Orange, California
USA 92865

Site Location: Mobile Facility

You have applied under section 20.2 of Part II.1 of the Environmental Protection Act, R.S.O. 1990, c. E. 19 (Environmental Protection Act) for approval of:

two (2) mobile remediation systems for the treatment of contaminated groundwater and soil vapour with each consisting of:

- one (1) High Vacuum Dual Phase Extraction system with a maximum treatment capacity of 340 cubic metres per hour, discharging to the air through one (1) stack equipped with a minimum of three (3) granular activated carbon units connected in series and one (1) Zeolite Pellet Tank, having a maximum volumetric flow rate of 0.09 cubic metre per second, an exit diameter of 0.0508 metre, and extending 4.6 metres above grade; and
- one (1) diesel fired generator rated at 40 kilowatts, discharging into the air at a volumetric flow rate of 1.2 cubic metres per second, through a stack, having an exit diameter of 0.2 metre, and extending 2.8 metres above grade;

all in accordance with the Environmental Compliance Approval Application submitted by CalClean, Inc., dated December 20, 2023 and signed by Noel Shenoi; the supporting information including the Emission Summary and Dispersion Modelling report prepared by GHD Limited, dated January 17, 2024 and signed by Michael Gierman; the Acoustic Assessment Report prepared by GHD Limited, dated January 17, 2024 and signed by Michael Masschaele.

For the purpose of this environmental compliance approval, the following definitions apply:

1. "Acoustic Assessment Report" means the report, prepared in accordance with Publication NPC-233 submitted in support of the application, that documents all sources of noise emissions and Noise

Control Measures present at the Facility. "Acoustic Assessment Report" also means the Acoustic Assessment Report prepared by GHD Limited, dated January 17, 2024 and signed by Michael Masschaele;

2. "Approval" means this Environmental Compliance Approval, including the application and supporting documentation listed above;
3. "Class 1 Area" means an area with an acoustical environment typical of a major population centre, where the background sound level is dominated by the activities of people, usually road traffic, often referred to as "urban hum";
4. "Class 2 Area" means an area with an acoustical environment that has qualities representative of both Class 1 Area and Class 3 Area:
 - a. sound levels characteristic of Class 1 Area during daytime (07:00 to 19:00 or to 23:00 hours); and
 - b. low evening and night background sound level defined by natural environment and infrequent human activity starting as early as 19:00 hours (19:00 or 23:00 to 07:00 hours);
5. "Class 3 Area" means a rural area with an acoustical environment that is dominated by natural sounds having little or no road traffic, such as:
 - a. a small community;
 - b. agricultural area;
 - c. a rural recreational area such as a cottage or a resort area; or
 - d. a wilderness area;
6. "Company" means CalClean, Inc., which is responsible for the operation of the Process and includes any successors and assigns;
7. "Contaminant Concentration Threshold" means the maximum allowable contaminant concentration in the exhaust gas from the HVDPE system as assessed in the ESDM Report to ensure compliance with O. Reg. 419/05 and is not likely to cause an adverse effect;
8. "Director" means a person appointed for the purpose of section 20.3 of the EPA by the Minister pursuant to section 5 of the EPA;
9. "District Manager" means the District Manager of the appropriate local district office of the Ministry, where the Facility is geographically being operated;

10. "EPA" means the Environmental Protection Act, R.S.O. 1990, c. E.19;
11. "Equipment" means the equipment associated with the Process as described in this Approval;
12. "ESDM Report" means the Emission Summary and Dispersion Modelling Report which was prepared in accordance with section 26 of O. Reg. 419/05 and the Procedure Document by GHD Limited., dated January 17, 2024 and signed by Michael Gierman, submitted in support of the application, and includes any changes to the report made up to the date of issuance of this Approval;
13. "Exhausted" means the capacity of the GAC and the Zeolite to adsorb contaminant emissions is reached, and they are no longer able to effectively reduce emissions;
14. "Facility" means the entire operation located on the property where the Equipment is located;
15. "GAC" means granular activated carbon;
16. "HVDPE System" means the High Vacuum Dual Phase Extraction System as described in the Company's application and this Approval;
17. "Manual" means a document or a set of documents that provide written instructions to staff of the Company;
18. "Ministry" means the Ministry of the Government of Ontario responsible for the EPA and includes all officials, employees or other persons acting on its behalf;
19. "Noise Control Measures" means measures to reduce the noise emissions from the Facility and/or Equipment including, but not limited to, silencers, acoustic louvres, enclosures, absorptive treatment, plenums and barriers, described in the Company's application, this Approval and in the supporting documentation referred to herein, to the extent approved by this Approval;
20. "Operating Procedures and Maintenance Manual" means the written operating procedures and maintenance manual developed for the Company as described in Condition 3;
21. "Point of Reception" means a point of reception as defined in Publication NPC-300;
22. "Process" means the remediation processes described in the Company's application, this Approval, and in the supporting documentation submitted with the application, to the extent approved by this Approval;
23. "Publication NPC-233" means the Ministry Publication NPC-233, "Information to be Submitted for Approval of Stationary Sources of Sound", October, 1995, as amended;
24. "Publication NPC-300" means the Ministry Publication NPC-300, "Environmental Noise Guideline, Stationary and Transportation Sources - Approval and Planning, Publication NPC-300", August

2013, as amended;

25. "Remedial Work Plan" means a plan, developed for the Site, prepared as a single document as described in Condition 2;
26. "Rural Land Use" means the land use characterization as determined by the "Air Dispersion Modelling Guide for Ontario", Version 3.0, February 2017, as amended;
27. "Schedule" means the schedules attached to, and forming part of, this Approval, namely:
 - Schedule "A" - Minimum Required Separation Distances;
 - Schedule "B" - Form 1: Soil/Groundwater Remediation Process Notice of Intended Location.
28. "Sensitive Receptor" means any location where routine or normal activities occurring at reasonably expected times would experience adverse effect(s) from discharges from the Equipment/Process to the atmosphere, including one or a combination of:
 - a. as private residences or public facilities where people sleep (eg: single and multi-unit dwellings, nursing homes, hospitals, trailer parks, camping grounds, etc.);
 - b. institutional facilities (eg: schools, churches, community centres, day care centres, recreational centres, etc.);
 - c. outdoor public recreational areas (eg: trailer parks, play grounds, picnic areas, etc.); and
 - d. other outdoor public areas where there are continuous human activities (eg: commercial plazas and office buildings).
29. "Site" means any property or properties described in a completed Schedule "B" at which the Process is operated;
30. "SPCP" means the written Spill Prevention and Contingency Plan developed for the Company as described in Condition 4;
31. "Target Compounds" means the contaminants in the groundwater and soil vapour as described in the Company's application, this Approval, and in the supporting documentation submitted with the application, to the extent approved by this Approval, that the Process is designed to treat as part of the Remedial Work Plan; and
32. "Urban Land Use" means the land use characterization as determined by the "Air Dispersion Modelling Guide for Ontario", Version 3.0, February 2017, as amended.

You are hereby notified that this environmental compliance approval is issued to you subject to the terms and

conditions outlined below:

TERMS AND CONDITIONS

1. PERFORMANCE REQUIREMENTS

1. The Company shall, for each Site,
 - a. design and operate the Process with the intent to reduce the concentrations of the Target Compounds;
 - b. before commencement of operation of the Process, prepare the following;
 - i. Remedial Work Plan; and
 - ii. an Operating Procedures and Maintenance Manual.
 - c. ensure that the concentration of the contaminants in the exhaust gas from the HVDPE system does not exceed the Contaminant Concentration Threshold;
 - d. depending on the Site conditions, may use the Zeolite Pellet Tank in accordance with the ESDM report;
 - e. ensure that only one (1) remediation system approved under this Approval is operated at any one time; and
 - f. ensure a minimum separation distance of 28 metres is maintained between the Facility and the property boundary of the nearest Sensitive Receptor.

2. REMEDIAL WORK PLAN

1. The Company shall, before commencement of operation of the Process at the Site, prepare a Remedial Work Plan designed with specific application for the Site that specifies, as a minimum:
 - a. the remedial objectives established for the Site;
 - b. an overview of the work to be undertaken by the Company;
 - c. a description of the Site;
 - d. land uses at the Site and in the immediate surrounding vicinity;
 - e. locations of on-Site and off-Site Sensitive Receptors;

- f. a Site plan overview of the extent of contamination at the Site; and
- g. alternative remedial measures to be undertaken in the event that the Process is not successful to meet the Remedial Work Plan objectives.

3. OPERATION AND MAINTENANCE

1. The Company shall, before commencement of operation of the Process at the Site, prepare and implement a Site specific Operating Procedures and Maintenance Manual for the Equipment and Process that specifies, as a minimum:
 - a. major components of the Equipment to be used in the Process;
 - b. frequency of inspections and scheduled maintenance for the Equipment;
 - c. procedures to inspect, test and replace the vapour phase GAC and Zeolite before it is Exhausted;
 - d. procedures to measure and record the degree of contamination of the soil and groundwater;
 - e. procedures to measure the concentration of contaminants in the exhaust gas from the GAC unit and the Zeolite pellet tank;
 - f. procedures to prevent and/or minimize, monitor and record odour from the Facility and measures to address odour complaints resulting from the operation of the Facility;
 - g. procedures to prevent and/or minimize noise and fugitive dust emissions;
 - h. the SPCP procedures to prevent spills relating to the Process;
 - i. contingency measures to address upset conditions;
 - j. procedures to record and respond to environmental complaints; and
 - k. steps to be carried out for the discontinuation of the Process.
2. The Company shall ensure that the vapour phase GAC and Zeolite is not Exhausted when it is in operation.

4. SPILL PREVENTION AND CONTINGENCY PLAN

1. The Company shall prepare, and implement a written spill prevention and contingency plan that is applicable to the Process at the Site. The SPCP shall include appropriate measures to mitigate spills that may result from the Process, including different spill sizes, types of contaminants, and receiving environments (including land, natural waterways, and municipal sewers). The SPCP shall include as a minimum the following information commensurate with the risk of spills at the Site:
 - a. containment procedures;
 - b. treatment, neutralization and/or clean up procedures;
 - c. disposal procedures that are in accordance with the EPA, and/or municipal by-laws and other legislation as applicable;
 - d. securement of necessary equipment;
 - e. notification procedures; and
 - f. details of the training procedures.
2. The Company shall ensure that employees and agents of the Company have been trained on the SPCP prior to commencement of the Process at the Site.
3. The Company shall review and update the SPCP as needed.

5. NOISE

1. The Company shall, for each Site,
 - a. ensure, at all times, that the noise emissions from the Facility comply with the limits set in Ministry Publication NPC-300;
 - b. implement prior to the commencement of operation of the Equipment, the Noise Control Measures as outlined in the Acoustic Assessment Report;
 - c. ensure that the Noise Control Measures are properly maintained and continue to provide the acoustical performance outlined in the Acoustic Assessment Report;
 - d. ensure all doors of the vehicle housing the Equipment remain closed during use of the Equipment;
 - e. ensure the minimum separation distance as specified in Schedule "A" is maintained between the Facility and the nearest Point of Reception; and

- f. ensure at all times, that the sound emissions of any generator operation performed on the Site shall not exceed the values specified in Table 1 of the Acoustic Assessment Report.

6. NOTIFICATION REQUIREMENTS

1. The Company shall notify the District Manager at least ten (10) calendar days, or at such other time as may be agreed to in writing by the District Manager, before commencement of operation of the Process at any Site by submitting a completed Form 1, set out in Schedule "B" of this Approval, with attachments, to the District Manager.
2. The Company shall notify the District Manager, in writing, forthwith if the Process is not carried out in accordance with the Performance Requirements outlined in Condition 1.
3. The Company shall notify the District Manager, in writing, forthwith within two (2) business days of each complaint that the Company receives resulting from the operation of the Process at the Site. The notification shall include the information described in paragraph (e) of Condition 7.

7. RECORD KEEPING REQUIREMENTS

1. The Company shall, for each Site, retain for a minimum of five (5) years from the date of their creation, all reports, records, and information as described in this Approval, related to or resulting from the operation of the Process at the Site including:
 - a. the Remedial Work Plan;
 - b. records related to the inspection, maintenance, and repair of the major components of the Equipment related to the Process;
 - c. records related to the testing and sampling of the exhaust gas from the GAC unit and the Zeolite pellet tank;
 - d. records related to soil and groundwater testing and sampling; and
 - e. records about complaints, including:
 - i. a description of the time and date of the complaint and of the incident to which the complaint relates;
 - ii. the nature of the complaint and the address of the complainant, if known;
 - iii. weather conditions at the time of the incident to which the complaint relates;

iv. a description of the measures taken to determine the possible causes of the complaint and the steps taken to investigate and deal with the cause of the incident to which the complaint relates and the steps taken and/or to be taken to prevent a similar occurrence in the future; and

v. a written response to the complainant, if known.

8. CHANGE OF OWNERSHIP

1. The Company shall notify the Director in writing, and forward a copy of the notification to the District Manager, within thirty (30) days of the occurrence of any of the following changes to the facility operations:
 - a. the ownership of the Facility;
 - b. the operator of the Facility;
 - c. the address of the Company;
 - d. the partners, where the Company is or any time becomes a partnership and a copy of the most recent declaration filed under the *Business Names Act*, R.S.O. 1990, c. B.17, shall be included in the notification;
 - e. the name of the corporation where the Company is or at any time becomes a corporation, other than a municipal corporation, and a copy of the most current information filed under the Corporations Information Act, R.S.O. 1990, c. C.39, shall be included in the notification.
2. In the event of any change in ownership of the Facility, the Company shall notify the successor of the existence of this Approval and provide the successor with a copy of this Approval, and the Company shall provide a copy of the notification to the District Manager and the Director.

SCHEDULE "A"

Minimum Required Separation Distances from the Points of Reception

Table 1

Operating Scenario 1: Without Generator, With Silencer on Air Separation Trailer Radiator Exhaust

Point of Reception Location	Time of Plant Operation	Sound Level Limits (dBA)	Minimum Separation Distance (Metres)
Class 1 Areas (Urban)	Day (7 a.m. - 7 p.m.)	50	3
Class 1 Areas (Urban)	Evening (7 p.m. – 11 p.m.)	50	3
Class 1 Areas (Urban)	Night (11 p.m. - 7 a.m.)	45	5
Class 2 Areas (Urban)	Day (7 a.m. - 7 p.m.)	50	3
Class 2 Areas (Urban)	Evening (7 p.m. – 11 p.m.)	45	5
Class 2 Areas (Urban)	Night (11 p.m. - 7 a.m.)	45	5
Class 3 Areas (Rural)	Day (7 a.m. - 7 p.m.)	45	5
Class 3 Areas (Rural)	Evening (7 p.m. – 11 p.m.)	40	9
Class 3 Areas (Rural)	Night (11 p.m. - 7 a.m.)	40	9

Table 2

Operating Scenario 2: With Generator, With Silencer on Air Separation Trailer Radiator Exhaust

Point of Reception Location	Time of Plant Operation	Sound Level Limits (dBA)	Minimum Separation Distance (Metres)
Class 1 Areas (Urban)	Day (7 a.m. - 7 p.m.)	50	34
Class 1 Areas (Urban)	Evening (7 p.m. – 11 p.m.)	50	34
Class 1 Areas (Urban)	Night (11 p.m. - 7 a.m.)	45	59
Class 2 Areas (Urban)	Day (7 a.m. - 7 p.m.)	50	34
Class 2 Areas (Urban)	Evening (7 p.m. – 11 p.m.)	45	59
Class 2 Areas (Urban)	Night (11 p.m. - 7 a.m.)	45	59
Class 3 Areas (Rural)	Day (7 a.m. - 7 p.m.)	45	59
Class 3 Areas (Rural)	Evening (7 p.m. – 11 p.m.)	40	99
Class 3 Areas (Rural)	Night (11 p.m. - 7 a.m.)	40	99

SCHEDULE "B"

Form 1

SOIL/GROUNDWATER REMEDIATION PROCESS NOTICE OF INTENDED LOCATION

1. Owner and/or Operator
 - a. Company name :
 - b. Environmental Compliance Approval (Air) number:
 - c. Contact person :
 - d. Telephone number :
2. Proposed Location
 - a. Municipality:
 - b. Street address or Lot and Concession number:
3. Land use in the immediate vicinity:
4. Operating schedule:
 - a. Date of commencement:
 - b. Estimated duration:
 - c. Hours of operation:

Please attach the following:

- a. A plan showing the area(s) within the Site where the Process is going to be operated;
- b. An overview of the Process to be used at the Site, including a description of the technology (or technologies) and delivery method(s) to be used; and
- c. An overview of the Site specific Remedial Work Plan, the Monitoring Plan, and the Operations and Maintenance Manual that have been drafted and will be finalized before commencement of operation of the Process at the Site and will be implemented at the Site as required by this Approval.

The reasons for the imposition of these terms and conditions are as follows:

1. Condition No. 1 is included to outline the minimum performance requirements considered necessary to prevent an adverse effect resulting from the operation of the Process.
2. Condition No. 2 is included to require the Company to gather accurate information and prepare a work plan prior to carrying out the Process at the Site and so that compliance with the EPA and this Approval can be verified.
3. Condition No. 3 is included to emphasize that the Equipment and Process must be operated according to a procedure that will result in compliance with the EPA, the regulations, and this Approval.
4. Condition No. 4 is included to require the Company to prevent and mitigate spills thereby minimizing adverse environmental impacts.
5. Condition No. 5 is included to provide the minimum performance requirements considered necessary to prevent an adverse effect resulting from the operation of the Facility / Equipment and to emphasize that the Facility / Equipment must be maintained and operated according to a procedure that will result in compliance with the EPA, the regulations and this Approval.
6. Condition No. 6 is included to require the Company to notify the Ministry so that the environmental impact and subsequent compliance with the EPA, the regulations, and this Approval can be verified.
7. Condition No. 7 is included to require the Company to retain records and provide information to the Ministry so that the environmental impact and subsequent compliance with the EPA, the regulations, and this Approval can be verified.
8. Condition No. 8 is included to require the Company to notify/report to the Ministry so that compliance with the EPA, the regulations and this Approval can be verified.

Upon issuance of the environmental compliance approval, I hereby revoke Approval No(s). 4498-BJ6TF9 issued on February 3, 2020

In accordance with Section 139 of the *Environmental Protection Act*, you may by written notice served upon me, the Ontario Land Tribunal and in accordance with Section 47 of the *Environmental Bill of Rights*, 1993, the Minister of the Environment, Conservation and Parks, within 15 days after receipt of this notice, require a hearing by the Tribunal. The Minister of the Environment, Conservation and Parks will place notice of your appeal on the Environmental Registry. Section 142 of the *Environmental Protection Act* provides that the notice requiring the hearing ("the Notice") shall state:

- a. The portions of the environmental compliance approval or each term or condition in the environmental compliance approval in respect of which the hearing is required, and;
- b. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

Pursuant to subsection 139(3) of the *Environmental Protection Act*, a hearing may not be required with respect to any terms and conditions in this environmental compliance approval, if the terms and conditions are substantially the same as those contained in an approval that is amended or revoked by this environmental compliance approval.

The Notice should also include:

1. The name of the appellant;
2. The address of the appellant;
3. The environmental compliance approval number;
4. The date of the environmental compliance approval;
5. The name of the Director, and;
6. The municipality or municipalities within which the project is to be engaged in.

And the Notice should be signed and dated by the appellant.

This Notice must be served upon:

Registrar*
Ontario Land Tribunal
655 Bay Street, Suite 1500
Toronto, Ontario
M5G 1E5
OLT.Registrar@ontario.ca

and

The Minister of the Environment,
Conservation and Parks
777 Bay Street, 5th Floor
Toronto, Ontario
M7A 2J3

and

The Director appointed for the purposes of
Part II.1 of the *Environmental Protection Act*
Ministry of the Environment,
Conservation and Parks
135 St. Clair Avenue West, 1st Floor
Toronto, Ontario
M4V 1P5

*** Further information on the Ontario Land Tribunal's requirements for an appeal can be obtained directly from the Tribunal at: Tel: (416) 212-6349 or 1 (866) 448-2248, or www.olt.gov.on.ca**

This instrument is subject to Section 38 of the *Environmental Bill of Rights*, 1993, that allows residents of Ontario to seek leave to appeal the decision on this instrument. Residents of Ontario may seek leave to appeal within 15 days from the date this decision is placed on the Environmental Registry. By accessing the Environmental Registry at <https://ero.ontario.ca/>, you can determine when the leave to appeal period ends.

The above noted activity is approved under s.20.3 of Part II.1 of the *Environmental Protection Act*.

DATED AT TORONTO this 5th day of June, 2025

Nancy E Orpana, P.Eng.
Director
appointed for the purposes of Part II.1 of the
Environmental Protection Act
