

ENVIRONMENTAL COMPLIANCE APPROVAL

NUMBER 6708-DMRRSM

Issue Date: November 22, 2025

Inflector Environmental Services LP, acting by its General
Partner, Inflector Environmental Services GP Inc. operating
as Inflector Environmental Services
6961 McKeon Dr
Greely, Ontario
K4P 1A2

Site Location: 98 Milvan Dr
City of Toronto
M9L 1Z6

You have applied under section 20.2 of Part II.1 of the Environmental Protection Act, R.S.O. 1990, c. E. 19 (Environmental Protection Act) for approval of:

the use and operation of a 0.31 hectare waste disposal site
to be used for the transfer of the following types of waste:
asbestos waste.

Note: Use of the site for any other type of waste is not approved under this environmental compliance approval, and requires obtaining a separate approval amending this environmental compliance approval.

For the purpose of this environmental compliance approval, the following definitions apply:

1. "Adverse Effect" has the same meaning as defined in section 1 of the EPA;
2. "Approval" means this Environmental Compliance Approval and any Schedules attached to it;
3. "Director" means a person appointed by the Minister pursuant to section 5 of the EPA for the purposes of Part II.1 of the EPA;
4. "District Manager" means the District Manager of the local district office of the Ministry in which the Site is geographically located;
5. "EPA" means the *Environmental Protection Act*, R.S.O. 1990, c. E.19;

6. "Financial Assurance" is as defined in Section 131 of the EPA;
7. "Minister" means the Minister of the Ministry or such other member of the Executive Council as may be assigned the administration of the EPA and OWRA under the *Executive Council Act*, R.S.O. 1990, c. E.25;
8. "Ministry" means the Ministry of the Environment, Conservation and Parks;
9. "Operator" means any person, other than the Owner's employees, authorized by the Owner as having the charge, management or control of any aspect of the Site;
10. "Owner" means Inflector Environmental Services LP, acting by its General Partner, Inflector Environmental Services GP Inc. operating as Inflector Environmental Services, including any successors and assignees, and has the same meaning set out in section 25 of the EPA, as applicable;
11. "OWRA" means the *Ontario Water Resources Act*, R.S.O. 1990, c. O.40;
12. "PA" means the *Pesticides Act*, R.S.O. 1990, c. P.11;
13. "Provincial Officer" means any person designated in writing by the Minister as a provincial officer pursuant to section 5 of the OWRA or section 5 of the EPA or section 17 of PA;
14. "Regulation 347" or "Reg. 347" means Revised Regulations of Ontario 1990, Regulation 347: (General - Waste Management), made under the EPA;
15. "Site" means the 0.31 hectare waste disposal site approved under this Approval, located at 98 Milvan Drive, City of Toronto, M9L 1Z6; and
16. "Trained Personnel" means an employee trained in accordance with the requirements of Condition 21 and is knowledgeable through instruction and/or practice and able to carry out any necessary duties.

You are hereby notified that this environmental compliance approval is issued to you subject to the terms and conditions outlined below:

TERMS AND CONDITIONS

1.0 Compliance

- 1.1 The Owner and Operator shall ensure compliance with all the conditions of this Approval, ensure that any person authorized to carry out work on or operate any aspect of the Site is notified of this Approval and the conditions herein, and take all reasonable measures to ensure any such person complies with the same.
- 1.2 Any person authorized to carry out work on or operate any aspect of the Site shall comply with the

conditions of this Approval.

- 1.3 The Site shall be operated and maintained at all times, including management and disposal of all waste, in accordance with the EPA, Reg. 347 and the conditions of this Approval. At no time shall the discharge of a contaminant that causes or is likely to cause an Adverse Effect be permitted.

2.0 Design, Develop, Build, Operate, Modify and Maintain in Accordance

- 2.1 Except as otherwise provided for in this Approval, the Site shall be designed, developed, built, operated, modified and maintained in accordance with the application for this Approval dated December 11, 2024 and the other supporting documentation listed in Schedule "A".
- 2.2 The Site shall be constructed and the approved equipment shall be installed and must commence operation, within five (5) years of issuance of this Approval, after which time the Approval ceases to apply in respect of any portions of the Site not in operation. In the event that the construction, installation and/or operation of any portion of the Site is anticipated to be delayed beyond the time period stipulated, the Owner shall submit to the Director an application to amend the Approval to extend this time period, at least six (6) months prior to the end of the period. The amendment application shall include the reason(s) for the delay and whether there is any design change(s).

3.0 Interpretation

- 3.1 Where there is a conflict between a provision of any document, including the application, referred to in this Approval, and the conditions of this Approval, the conditions in this Approval shall take precedence.
- 3.2 Where there is a conflict between the application and a provision in any documents listed in Schedule "A", the application shall take precedence, unless it is clear that the purpose of the document was to amend the application and that the Ministry approved the amendment.
- 3.3 Where there is a conflict between any two documents listed in Schedule "A", other than the application, the document bearing the most recent date shall take precedence.
- 3.4 The requirements of this Approval are severable. If any requirement of this Approval, or the application of any requirement of this Approval to any circumstance, is held invalid or unenforceable, the application of such requirement to other circumstances and the remainder of this Approval shall not be affected thereby.

4.0 Other Legal Obligations

4.1 The issuance of, and compliance with, this Approval does not:

1. relieve any person of any obligation to comply with any provision of any applicable statute, regulation or other legal requirement including, but not limited to:
 - a. obtaining site plan approval from the local municipal authority;
 - b. obtaining all necessary building permits from the local municipal authority Building Services Division;
 - c. obtaining any necessary or applicable approvals from the Chief Fire Prevention Officer, local municipal authority; or
2. limit in any way the authority of the Ministry to require certain steps be taken or to require the Owner and Operator to furnish any further information related to compliance with this Approval.

4.2 The Owner shall ensure air approvals under Section 9 of the EPA, if and where applicable, have been obtained.

4.3 Any wastewater discharged from the Site must be done in accordance with all applicable municipal, provincial or federal legislation, regulations and by-laws.

5.0 Adverse Effect

5.1 The Owner and Operator shall take steps to minimize and ameliorate any Adverse Effect on the natural environment or impairment of water quality resulting from the Site, including such accelerated or additional monitoring as may be necessary to determine the nature and extent of the effect or impairment.

5.2 Despite an Owner, Operator or any other person fulfilling any obligations imposed by this Approval, the Owner, Operator or any other person remains responsible for any contravention of any other condition of this Approval or any applicable statute, regulation, or other legal requirement resulting from any act or omission that caused the Adverse Effect to the natural environment or impairment of water quality.

6.0 Change of Owner

6.1 The Owner shall notify the Director in writing, and forward a copy of the notification to the District Manager, within thirty (30) days of the occurrence of any changes:

1. the ownership of the Site;
2. the Operator of the Site;

3. the address of the Owner or Operator;
 4. the partners, where the Owner is or at any time becomes a partnership and a copy of the most recent declaration filed under the Business Names Act, R.S.O. 1990, c. B-17 shall be included in the notification; and
 5. the name of the corporation where the Owner is or at any time becomes a corporation, other than a municipal corporation, and a copy of the most current information filed under the Corporations Information Act, R.S.O. 1990, c. C-39 shall be included in the notification.
- 6.2 No portion of this Site shall be transferred or encumbered prior to or after closing of the Site unless the Director is notified in advance and sufficient financial assurance is deposited with the Ministry to ensure that these conditions will be carried out.
- 6.3 In the event of any change in ownership of the Site, the Owner shall notify, in writing, the succeeding owner of the existence of this Approval, and a copy of such notice shall be forwarded to the Director.

7.0 Financial Assurance

- 7.1 Within twenty (20) days of issuance of this Approval, the Owner shall submit to the Director, Financial Assurance in the amount of **\$10,854**. This Financial Assurance shall be submitted in a form acceptable to the Director and shall provide sufficient funds for site clean-up, monitoring, and the analysis, transportation and disposal of all quantities of waste permitted to be on-site at any one time.
- 7.2 Commencing on November 1, 2030 and at intervals of five (5) years thereafter, the Owner shall submit to the Director, a re-evaluation of the amount of Financial Assurance to implement the actions required under Condition 7.1. The re-evaluation shall include an assessment based on any new information relating to the environmental conditions of the Site and shall include the costs of additional monitoring and/or implementation of contingency plans required by the Director upon review of the closure plan and annual reports. The Financial Assurance must be submitted to the Director within thirty (30) calendar days of written acceptance of the re-evaluation by the Director.
- 7.3 The amount of Financial Assurance is subject to review at any time by the Director and may be amended at his/her discretion.
- 7.4 If any Financial Assurance is scheduled to expire or notice is received, indicating Financial Assurance will not be renewed, and satisfactory methods have not been made to replace the Financial Assurance at least sixty (60) days before the Financial Assurance terminates, the Financial Assurance shall forthwith be replaced by cash.

8.0 Inspections

- 8.1 No person shall hinder or obstruct a Provincial Officer from carrying out any and all inspections authorized by the OWRA, the EPA, or the PA, of any place to which this Approval relates, and without

limiting the foregoing:

1. to enter upon the premises where the approved works are located, or the location where the records required by the conditions of this Approval are kept;
2. to have access to, inspect, and copy any records required to be kept by the conditions of this Approval;
3. to inspect the Site, related equipment and appurtenances;
4. to inspect the practices, procedures, or operations required by the conditions of this Approval; and
5. to sample and monitor for the purposes of assessing compliance with the terms and conditions of this Approval or the EPA, the OWRA or the PA.

9.0 Information and Record Retention

- 9.1 Any information requested, by the Ministry, concerning the Site and its operation under this Approval, including but not limited to any records required to be kept by this Approval shall be provided to the Ministry, upon request, in a timely manner.
- 9.2 The receipt of any information by the Ministry or the failure of the Ministry to prosecute any person or to require any person to take any action, under this Approval or under any statute, regulation or other legal requirement, in relation to the information, shall not be construed as:
 1. an approval, waiver, or justification by the Ministry of any act or omission of any person that contravenes any term or condition of this Approval or any statute, regulation or other legal requirement; or
 2. acceptance by the Ministry of the information's completeness or accuracy.
- 9.3 All records required by the conditions of this Approval must be retained on Site for a minimum period of two (2) years from the date of their creation.
- 9.4 Any information relating to this Approval and contained in Ministry files may be made available to the public in accordance with the provisions of the Freedom of Information and Protection of Privacy Act, R.S.O. 1990, C. F-31.

10.0 Service Area and Hours of Operation

- 10.1 Only waste that is generated in the province of Ontario may be accepted at the Site.
- 10.2 Waste may be received and shipped from the Site between 7:00am and 6:00pm, Monday to Friday, and between 9:00am and 5:00pm, Saturday and Sunday, unless otherwise restricted by local by-laws.

11.0 Signage and Security

11.1 Prior to receiving any waste at the Site, the Owner shall install a sign at the main entrance/exit of the Site on which the following information shall be legibly displayed:

1. name of the Owner;
2. this Approval number;
3. hours during which the Site is open;
4. waste types that are approved to be accepted at the Site;
5. Owner's telephone number to which complaints may be directed;
6. Ministry's telephone number to which complaints may be directed;
7. Owner's twenty-four hour emergency telephone number (if different from above);
8. a warning against unauthorized access; and
9. a warning against dumping at the Site.

11.2 The Site shall be operated and maintained in a secure manner, such that unauthorized persons cannot enter the site. During non-operating hours, the Site gates shall be locked and secured against access by unauthorized persons.

12.0 Approved Waste Types

12.1 No waste other than asbestos waste, generated through asbestos removal activities carried out by the Owner, shall be received at the Site.

12.2 The Owner shall ensure:

1. all incoming loads are inspected by Trained Personnel to ensure only approved waste is received at this Site.
2. If any incoming waste load is known to contain unapproved waste, or is discovered to contain unapproved waste during receipt, that load shall be rejected.
3. If any unapproved waste is discovered on-site, that waste shall be immediately removed from the Site for disposal in accordance with the EPA and Reg. 347.

12.3 The Owner shall ensure that Trained Personnel is/are on duty at all times when the Site is open to ensure

proper supervision of all waste activities.

13.0 Approved Waste Quantities

- 13.1 The amount of waste received at the Site on any one day shall not exceed 7 tonnes.
- 13.2 The amount of waste stored at the Site at any one time shall not exceed 7 tonnes. This waste shall be stored within one (1) enclosed sea container, having a capacity of 12 cubic metres, located in the designated storage area indoors, identified in the Site Layout in Schedule "A".

14.0 Waste Storage and Management

- 14.1 The Owner shall ensure that all waste is stored and transferred in a manner that does not result in a nuisance or an Adverse Effect.
- 14.2 The following waste management activities may be carried out at the Site: the receipt, temporary storage and transfer of waste.
- 14.3 All asbestos waste at the Site shall be managed in accordance with the EPA and Reg. 347 (specifically, but not limited to, Section 17 of Reg. 347), unless otherwise specified in the conditions of this Approval.
- 14.4 All storage containers used to store waste shall be maintained in good condition to prevent leakage. The Owner shall immediately remove from service any leaking container.
- 14.5 The following requirements apply to the management of asbestos waste:
 - 1. The Owner shall ensure that signage is posted at the entrance to the Site displaying appropriate asbestos waste packaging and handling protocols in large, easily legible letters.
 - 2. The Owner shall inspect all incoming asbestos waste loads to ensure that all asbestos waste received and stored at the Site is enclosed in six-mil polyethylene bags free from punctures, tears or leaks. Any bag which is deficient shall be immediately over-packed in a six-mil polyethylene bag, along with additional over-packing as necessary to prevent further breakage.
 - 3. All waste management activities at the Site shall occur indoors, unless otherwise specified in the conditions of this Approval and the items in Schedule "A".
 - 4. Asbestos waste bags shall be stacked in a manner which prevents the compression and puncture of bags.
 - 5. Sharp or rigid asbestos waste shall be packaged and stored in a manner which eliminates the six-mil polyethylene bag from being punctured, including but not limited to, rolling or folding waste items to blunt exposed edges prior to bagging.
 - 6. All asbestos waste received at the Site shall be stored in a secure manner inside the enclosed sea

container referenced in Condition 13.2. Containers shall be covered/closed at all times except when depositing asbestos waste.

7. For unloading of incoming sealed asbestos waste bags, the Owner:
 - a. may leave the building bay doors open to allow for unloading of the bags into the building in which the asbestos waste container is located;
 - b. shall close the bay doors once the waste bags are placed inside the building;
 - c. shall ensure that the loading of waste bags into the container occurs with the building bay doors closed; and
 - d. shall ensure that the container cover is opened only with the bay doors closed.
8. Asbestos waste shall be removed from the Site for final disposal in the enclosed container. The container containing asbestos waste shall be covered/closed when loading onto a truck for hauling off-Site.
9. The Owner shall ensure that all asbestos waste being placed into or removed from a storage container is handled in a manner:
 - a. that prevents asbestos waste from becoming airborne;
 - b. that prevents rain or stormwater from coming into contact with the asbestos waste, or entering the storage container.
10. No other waste shall be stored with asbestos waste.
11. Both sides of every asbestos waste container on-site shall be labelled with the word "CAUTION" in large, easily legible letters not less than ten (10) centimetres in height in a colour that contrasts with the background colour, and with the following words:

"CONTAINS ASBESTOS FIBRES

Avoid Creating Dust and Spillage
Asbestos May be Harmful To Your Health
Wear Approved Protective Equipment"
12. The Owner shall ensure that every person involved in the handling or management of asbestos waste is trained in the handling and clean-up of asbestos waste, and shall take all precautions necessary to prevent asbestos waste from becoming airborne.
13. The Owner shall ensure that:

- a. any person managing loose asbestos waste or supervising the handling of that waste shall wear protective clothing and NIOSH-approved personal respiratory equipment while doing so;
 - b. any person using NIOSH-approved personal respiratory equipment shall be trained in the proper use of such equipment, and that all such equipment has been properly fit tested;
 - c. protective clothing that has been or is suspected of having been in contact with asbestos waste is disposed of as asbestos waste; and
 - d. no disposable protective clothing is reused.
14. The Owner shall ensure that asbestos spill and safety equipment is available and maintained in good working order at the Site, including (but not limited to) a shovel, a broom, wetting agent, protective clothing, a supply of six-mil polyethylene bags, bag closures, NIOSH-approved personal respiratory equipment for protection against asbestos fibers, HEPA vacuum(s), and negative air units.
15. In addition to the requirements of Condition 18 of this Approval, the Owner shall conduct a daily inspection of the asbestos storage areas to ensure that no asbestos waste becomes airborne, or otherwise enters the natural environment, as a result of the following:
- a. improper storage;
 - b. loss of integrity or damage to containment vessels;
 - c. exposure to weather; and
 - d. exposure to fire or fire hazards.
16. Any deficiencies encountered during the daily inspections shall be recorded and promptly corrected to mitigate any possible impacts.
17. The Owner shall establish and implement an airborne asbestos fibre sampling and analysis plan at the Site in accordance with the following:
- a. the sampling and analysis of airborne asbestos fibres shall be carried out in accordance with the NIOSH 7400 procedure set out in the NIOSH Manual of Analytical Methods, as revised, unless modified by a Certified Industrial Hygienist or a Registered Occupational Hygienist provided both the modification and the reason for the modification are documented in a written and signed statement from the Hygienist;
 - b. all sampling of airborne asbestos fibres shall be conducted by a person possessing such special expert or professional knowledge or qualifications, or under the direction of a person possessing such special expert or professional knowledge or qualifications, such as a Certified Industrial Hygienist or a Registered Occupational Hygienist;

- c. all sampling of airborne asbestos fibres shall be carried out during an active period of asbestos waste transfer at the Site;
- d. the sampling of airborne asbestos fibres shall be carried out no less than once during any month in which asbestos waste is accepted at the Site until the sampling has been carried out during 6 separate months; and
- e. all analytical results shall be submitted to the District Office in writing within 1 week of the date the results were received, along with a statement indicating whether any modifications to the sampling procedure were made in accordance with Condition 14.5 paragraph 11 (a) above and whether the results show an exceedance of any limit set out in Ontario Regulation 833 made under the Occupational Health & Safety Act, and if there are any exceedances, a description of the source and cause of the exceedance and what further steps will be taken to address the source and cause identified.

18. The Owner shall ensure the following:

- a. all asbestos waste shipped from the Site shall be transported directly to a site approved to accept asbestos waste for final disposal, and not to a site where final disposal of the waste will not take place.
- b. all asbestos waste leaving the Site is packaged in accordance with the EPA and Reg. 347, and in a manner which is acceptable to the receiving site.
- c. Before shipping any asbestos waste from the Site, the Owner shall notify the receiving site of the shipment's anticipated date of arrival.
- d. Before shipping any asbestos waste from the Site, the Owner shall provide written notification to the District Office of the sub-items below. This requirement for notification may be waived through the written consent of the District Manager after a period of two (2) years:
 - i. the time and date of shipment;
 - ii. the amount of asbestos waste shipped from the Site;
 - iii. the name and Approval number of the company transporting the waste;
 - iv. the name of the company receiving the waste;
 - v. the location and Approval number of the receiving site.
- e. The Owner shall request written confirmation of receipt from the receiving site for each asbestos waste shipment. These written records shall be made available to any Provincial Officer upon request.

19. As per Section 25(2)(h) of the Occupational Health and Safety Act, enforced by the Ontario Ministry of Labour, the Owner shall take every precaution reasonable in the circumstances for the protection of a worker from exposure to asbestos in the workplace.

15.0 Nuisance Control

- 15.1 The Owner shall operate and maintain the Site such that the dust, odours, vectors, vermin, litter, vibration, noise and traffic do not create a nuisance.
- 15.2 If at any time problems such as odours, dust, litter, noise, vectors, vermin, rodents or other nuisances are generated at the Site, the Owner shall take appropriate, immediate remedial action to eliminate the problem. Appropriate measures may include the removal of waste from the Site and temporary stoppage of all operations until the problem has been rectified and measures have been undertaken to prevent future occurrence.
- 15.3 If at any time dust becomes a nuisance, the Owner shall develop a dust control plan, satisfactory to the District Manager, which shall detail all practical steps that the Owner shall implement to control dust at the Site.
- 15.4 The Owner shall ensure that the vehicle routes shall be paved.
- 15.5 The Owner shall ensure that there is no queuing or parking of vehicles that are waiting to enter the Site on any roadway that is not a distinct part of the Site.
- 15.6 The Owner shall control fugitive dust emissions from the on-site roads. If necessary, the major sources of dust shall be treated with water and/or dust suppression materials to minimize the overall dust emissions from the Site.
- 15.7 The Owner shall ensure that reasonable efforts are made to keep the access road used by vehicles to leave the Site, free of mud, dirt and waste.

16.0 Stormwater Management

- 16.1 The Owner shall manage all stormwater runoff from this Site in accordance with appropriate municipal, provincial and/or federal legislation, regulations and by-laws.
- 16.2 The Owner shall ensure that the Site is graded and/or constructed and maintained in good order such that surface water runoff is diverted away from waste storage areas.
- 16.3 The Owner shall prevent stormwater runoff from coming in contact with waste.

17.0 Operations Manual

- 17.1 Prior to the first receipt of waste at the Site, the Owner shall prepare an Operations Manual for use by the Site personnel. As a minimum, the Operations Manual shall contain the following:
1. an outline of the responsibilities of Site personnel;
 2. personnel training protocols;
 3. waste receiving and screening procedures;
 4. waste unloading, handling, and storage procedures;
 5. sampling and testing procedures;
 6. Site inspections, spill, fire, upset and leakage recording procedures under the procedure for handling complaints as described in this Approval.
- 17.2 A copy of the Operations Manual shall be kept at the Site, must be accessible to personnel at all times and must be updated, as required.

18.0 Site Inspections

- 18.1 Trained Personnel shall carry out a daily inspection of the entire Site to ensure that:
1. the Site is secure;
 2. no unapproved waste is present at the Site;
 3. the operation of the Site is not the cause of any nuisances or Adverse Effects;
 4. all facilities are in good working order and operated in a manner that will not negatively impact the environment;
 5. waste storage, unloading and loading areas are orderly; and
 6. the Site is being operated in compliance with this Approval.
- 18.2 Any deficiencies discovered as a result of an inspection carried out under Condition 18.1 shall be remedied immediately, with corrective measures including temporarily ceasing operations at the Site and/or removing all waste from the Site as necessary.

19.0 Complaints

- 19.1 If at any time the Owner receives complaints regarding the operation of the Site, the Owner shall respond

to these complaints according to the following procedure:

1. The Owner shall record and number each complaint, either electronically or in a log book, and shall include the following information:
 - a. the nature of the complaint;
 - b. the name, address and the telephone number of the complainant if the complainant will provide this information;
 - c. the time and date of the complaint;
 - d. weather conditions at the time of the complaint; and
 - e. Site operations being carried out at the time of the complaint.
2. The Owner shall inform the District Manager of the complaint forthwith.
3. The Owner shall initiate appropriate steps to determine all possible causes of the complaint, proceed to take the necessary actions to eliminate the cause of the complaint and forward a formal reply to the complainant within one (1) week of the complaint date.
4. The Owner shall provide the District Manager with a report written within one (1) week of the complaint date, listing the actions taken regarding the complaint and any recommendations for remedial measures, and managerial or operational changes to reasonably avoid the recurrence of similar incidents.

20.0 Spill Response and Contingency Measures

- 20.1 All spills, as defined in the EPA, shall be immediately reported to the Ministry's Spills Action Centre at 1-800-268-6060.
- 20.2 Should a Spill occur at the Site, in addition to fulfilling the requirements from the EPA, the Owner shall submit to the District Manager a written report within three (3) calendar days outlining the nature of the Spill, remedial measure taken and the measures taken to prevent future occurrences at the Site.
- 20.3 The Owner shall implement and maintain an Emergency Response Plan for the Site. This Plan shall include, but not necessarily be limited to:
 1. maps and drawings showing the location, maximum quantity and types of all waste stored at the Site;
 2. emergency response procedures to be undertaken in the event of a spill, fire, medical emergency or process upset;

3. a list of equipment and spill clean up materials available in case of an emergency;
 4. contingency procedures to be followed in the event of equipment malfunction, a labour disruption, transportation disruption, inability of receiving sites to accept waste or other business disruption to the operation;
 5. notification protocol with names and telephone numbers of persons to be contacted, including persons responsible for the Site, the Ministry's District Office and Spills Action Centre, the local municipal fire department, the local municipal authority, the local Medical Officer of Health, the Ministry of Labour, and the names and telephone numbers of companies available for emergency response.
- 20.4 The equipment, materials and personnel requirements outlined in the Emergency Response Plan are required to be kept on Site and shall be immediately available on the Site at all times. The equipment shall be kept in a good state of repair and in a fully operational condition.
- 20.5 An up-to-date version of the Emergency Response Plan shall be kept at the Site at all times, in a central location available to all staff, and shall be available for inspection by a Provincial Officer upon request.
- 20.6 The Owner shall ensure that all operating personnel are fully trained in the use of the contingency equipment and materials outlined in the Emergency Response Plan, and in the procedures to be employed in the event of an emergency.
- 20.7 The Owner shall promptly take all necessary steps to contain and clean up any spills or upsets which result from this operation.

21.0 Training

- 21.1 Prior to the receipt of any waste at the Site, the Owner shall develop and implement a training plan specific to the Site to ensure that all employees that operate the Site or carry out any activity required under this Approval are trained in its operation.
- 21.2 The training plan shall require and ensure through proper written records that all persons directly involved with activities relating to the Site have been trained with respect to:
1. relevant air, noise, wastewater and waste management legislation, regulations and guidelines, including but not limited to the EPA and Reg. 347;
 2. environmental and occupational health and safety concerns pertaining to the wastes to be handled at the Site;
 3. the operation, inspection, and maintenance of the Site;
 4. records keeping procedures;

5. emergency procedures and contingency plans in case of fire, spills, off-site impacts and any other emergency situations detailed within the Emergency Response Plan;
6. specific written procedures for the control of Adverse Effects from the Site;
7. specific written procedures for refusal of unacceptable incoming waste loads; and
8. terms, conditions and operating requirements of this Approval, relevant to the specific job requirements of each individual employee.

22.0 Reporting

22.1 The Owner shall maintain an on-site written or digital record of daily activities undertaken at the Site. All measurements shall be recorded in consistent metric units of measurement. The record shall include, as a minimum, the following:

1. date of record;
2. types, quantities and source of waste received at the Site that day;
3. quantity and type of the waste present at the Site at the end of each operating day;
4. types, quantities and destination of waste shipped from the Site that day;
5. the source, waste type and quantity of any waste rejected and the reason for the rejection;
6. a description of any problems, upsets, spills, or complaints which occurred on the date of record and any remedial actions undertaken to mitigate or prevent a recurrence; and
7. records of any sampling and/or analysis carried out in accordance with the asbestos fibre sampling and analysis plan described in Condition 14.5 paragraph 11.

22.2 The Owner shall maintain an on-Site written or digital record of the emergency situations. The record shall include, as a minimum, the following:

1. the type of emergency situation;
2. description of how the emergency situation was handled;
3. the type and amount of material spilled, if applicable;
4. a description of how the material was cleaned up and stored, if generated; and
5. the location and time of final disposal, if applicable.

- 22.3 The Owner shall maintain an on-Site written or digital record of inspections as required by this Approval. The record shall include, as a minimum, the following:
1. the name and signature of the Trained Personnel that conducted the inspection;
 2. the date and time of the inspection;
 3. the list of any deficiencies discovered;
 4. the recommendations for remedial action; and
 5. the date, time and description of actions taken.
- 22.4 The Owner shall maintain an on-Site written or digital record of training as required by this Approval. The record shall include, as a minimum, the following:
1. date of training;
 2. name and signature of person who has been trained; and
 3. description of the training provided.
- 22.5 The Owner shall establish and maintain a written or digital record of complaints received and the responses made as required by this Approval.
- 22.6 By March 31st following the end of each operating year, the Owner shall prepare and maintain on-site an Annual Report summarizing the operation of the Site covering the previous calendar year. This Annual Report shall include, as a minimum, the following information:
1. a detailed monthly summary of the type and quantity of all incoming and outgoing wastes;
 2. a site plan with all active storage areas identified;
 3. any environmental and operational problems, that could negatively impact the environment, encountered during the operation of the Site or during Site inspections and any mitigative actions taken;
 4. any recommendations to minimize environmental impacts from the operation of the Site and to improve Site operation and monitoring programs in this regard;
 5. records of any sampling and/or analysis carried out in accordance with the asbestos fibre sampling and analysis plan described in Condition 14.5 paragraph 11;
 6. a summary of any complaints received and the responses made;

7. a summary of all inspections and maintenance carried out at the Site;
8. a written statement that the Site was in compliance with the Approval; and
9. any other information the District Manager requires from time to time.

23.0 Closure

- 23.1 The Owner shall submit, for approval by the Director, a written Closure Plan four (4) months prior to the permanent closure of the Site. This plan must include, at a minimum, a description of the work that will be done to facilitate closure of the Site and a schedule for completion of that work.
- 23.2 Within ten (10) days after closure of the Site, the Owner must notify the Director and District Manager, in writing, that the Site is closed and that the Closure Plan has been implemented.

SCHEDULE "A"

This Schedule "A" forms part of this Environmental Compliance Approval:

1. Revised Environmental Compliance Approval application dated December 11, 2024 and signed by Matthew Rinfret, Chief Operating Officer, Inflector Environmental Services, including all supporting documentation.
2. Email response from Thomas Li, SONAIR Environmental Inc. to the Ministry dated December 12, 2024, re: response to letter of acknowledgement.
3. Email from Xavier Cifuentes, Inflector Environmental Services to the Ministry dated January 10, 2025 regarding full operating name.
4. Emails from Thomas Li, SONAIR Environmental Inc. to the Ministry, dated March 31, 2025, April 7, 2025, April 15, 2025, August 6, 2025 and October 11, 2025 regarding site operations, waste handling procedures, financial assurance, neighbour notifications etc.
5. Email from Xavier Cifuentes, Inflector Environmental Services to the Ministry dated November 5, 2025 and November 13, 2025, re: waste storage and handling practices.

The reasons for the imposition of these terms and conditions are as follows:

1. The reason for Conditions 1.0, 3.0, 4.0, 5.0 and 9.0 is to clarify the legal rights and responsibilities of the Owner and the Operator.
2. The reason for Condition 2.0 and 17.0 is to ensure that the Site is operated in accordance with the application and supporting documentation submitted by the Owner, and not in a manner which the Director has not been asked to consider.
3. The reasons for Condition 6.0 are to ensure that the Site is operated under the corporate name which appears on the application form submitted for this approval and to ensure that the Director is informed of any changes, and to restrict potential transfer or encumbrance of the Site without the approval of the Director and to ensure that any transfer of encumbrance can be made only on the basis that it will not endanger compliance with this Approval.
4. The reason for Condition 7.0 is to ensure that sufficient funds are available to the Ministry to clean up the Site in the event that the Owner is unable or unwilling to do so.
5. The reason for Condition 8.0 is to ensure that appropriate Ministry staff have ready access to the Site for inspection of facilities, equipment, practices and operations required by the conditions in this Approval. This condition is supplementary to the powers of entry afforded a Provincial Officer pursuant to the EPA, OWRA and PA.
6. The reasons for Condition 10.0, 12.0, 13.0 and 14.0 are to specify the service area, hours of operation, the types of waste that may be received at the Site, the maximum amount of waste that may be received and stored at the Site, the manner in which waste may be stored at the Site and the waste activities that may be carried out at the Site.
7. The reason for Condition 11.0 is to ensure that users of the Site are fully aware of important information and restrictions related to Site operations, access and emergency response under this Approval, and to ensure the controlled access and integrity of the Site by preventing unauthorized access when the Site is closed and no site attendant is on duty.
8. The reasons for Condition 15.0, 16.0 and 18.0 are to ensure that the Site is not the cause of any nuisance impacts or Adverse Effects and to ensure that the Site is inspected on a regular basis to maintain this status.
9. The reason for Condition 19.0 is to ensure that all complaints received are recorded and addressed in a timely manner.
10. The reason for Condition 20.0 is to ensure that all spills and upsets are properly addressed in a timely manner.
11. The reason for Condition 21.0 is to ensure that the Site is operated by properly trained staff so that the operation of the Site does not result in a hazard or nuisance to people or the environment.
12. The reason for Condition 22.0 is to provide for the proper assessment of effectiveness and efficiency of site design and operation, their effect or relationship to any nuisance or environmental impacts, and the occurrence of any public complaints or concerns. Record keeping is necessary to determine compliance with this Approval, the EPA and its regulations.
13. The reason for Condition 23.0 is to ensure that the Site is closed in accordance with Ministry standards in a manner that protects the health and safety of the public and the environment.

In accordance with Section 139 of the *Environmental Protection Act*, you may by written notice served upon me, the Ontario Land Tribunal and in accordance with Section 47 of the *Environmental Bill of Rights*, 1993, the Minister of the Environment, Conservation and Parks, within 15 days after receipt of this notice, require a hearing by the Tribunal. The Minister of the Environment, Conservation and Parks will place notice of your appeal on the Environmental Registry. Section 142 of the *Environmental Protection Act* provides that the notice requiring the hearing ("the Notice") shall state:

- a. The portions of the environmental compliance approval or each term or condition in the environmental compliance approval in respect of which the hearing is required, and;
- b. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

The Notice should also include:

1. The name of the appellant;
2. The address of the appellant;
3. The environmental compliance approval number;
4. The date of the environmental compliance approval;
5. The name of the Director, and;
6. The municipality or municipalities within which the project is to be engaged in.

And the Notice should be signed and dated by the appellant.

This Notice must be served upon:

Registrar*
