The Minister's conditions to the granting of consent for this transaction **which must be fulfilled within two years from the date of this letter** are set out below. These conditions must be fulfilled prior to the granting of consent.

Conditions

1. That this approval applies to permit the lot addition of approximately 0.0293 hectares of vacant land from PIN 623270647 to be added to PIN 623270113, as applied for in the above noted application and depicted in Schedule A, attached to and forming part of this decision.
2. That the following documents be provided for the transaction described in Condition 1:
 - a. A copy of the application to transfer documents;
 - b. A schedule to application to transfer on which is set out the entire legal description of the parcel(s) in question. This Schedule must also contain the names of the parties indicated on application to transfer;
 - c. A reference plan of survey, which bears the Land Registry Office registration number and signature as evidence of its deposit therein, illustrating the parcel(s) to which the consent approval relates; and/or a legal description of the lands to be severed (and retained if requested) which is acceptable to the land registrar.
3. That an application to consolidate the parcels is prepared and an undertaking from the person registering the documents shall be required agreeing to register the consolidations once the land transfers have been registered.
4. This Ministry is to be advised in writing by the transferor that the Offer of Purchase and Sale agreement, or alternatively an acknowledgement by the transferor and transferees if the transaction is between family members, contains the following clause:
 - a. Wells used as drinking water sources must be constructed in accordance with Regulation 903 – Wells, under the Ontario Water

- b. Small private sewage disposal facilities which have a daily sewage flow of 10,000 litres or less per day must be certified by the Northwestern Health Unit. Large private sewage disposal facilities which have a daily sewage flow of >10,000 litres, or communal systems, must be approved by the Ministry of the Environment, Conservation and Parks. The Northwestern Health Unit should be contacted for information on the proper installation and operation of Class IV septic systems and Class 1 (pit privy) sewage systems.
- c. Domestic waste must be appropriately handled and disposed of at an approved waste disposal facility.
- d. If wildlife is encountered during construction, work should cease immediately and allow the animal to naturally move out of the construction zone. If the animal does not leave the area for a prolonged period of time, a qualified biologist should be consulted for response or mitigation measures. If an animal is injured or deceased or if a Species at Risk is found on the site, Ministry of the Environment, Conservation and Parks (MECP) SAR Ontario Branch (SAROntario@ontario.ca) should be contacted for guidance and handling. The following NOTES are for your information:

NOTES:

1. The required Transfer/Deed of Land form and Schedule page shall contain a complete and accurate legal description. The Minister's certificate of consent will be affixed to the completed Schedule page. For this reason, the names of the parties also must be set out on the Schedule page, so that the consent may be properly related to the intended conveyance.

- (a) requested that the certificate be given;
- (b) provided a registrable legal description of the retained land; and
- (c) provided a statement from an Ontario solicitor in good standing that there is no land abutting the subject land that is owned by the owner of the subject land other than land that could be conveyed without contravening section 50 of the Planning Act.

then the Minister will give the applicant a certificate for the retained land.

Inaccuracies or omissions with regard to the legal description in the Transfer/Deed of Land form, the Schedule page or the survey plan will result in the documents being returned without consent.

2. All Buildings, including those in unorganized territories, have been required to comply with the Ontario Building Code since December 31, 1975. At this time in unorganized territory, building permits and the payment of permit fees are not required. Inquiries about the Building Code should be made to:

that any person discovering human remains must cease all activities immediately and notify the police or coroner. If the coroner does not suspect foul play in the disposition of the remains, in accordance with Ontario Regulation 30/11 the coroner shall notify the Registrar, Ontario Ministry of Public and Business Service Delivery, which administers provisions of that Act related to burial sites. In situations where human remains are associated with archaeological resources, MCM should also be notified (archaeology@ontario.ca).

A marine archaeological assessment will be required where in water impacts are anticipated as part of future alterations to the property (e.g., shoreline alterations or the construction of docks). For more information, please refer to MCM's screening checklist: Criteria for Evaluating Marine Archaeological Potential - Forms - Central Forms Repository (CFR).

4. Owners and prospective buyers should contact the Northwestern Health Unit for all sewage systems that require a permit, including greywater systems but excluding pit privies. The importation of suitable fill may be required to construct sewage treatment systems to the satisfaction of the Health Unit. The Health Unit can also provide information on construction requirements, including minimum distances required between sewage systems and sources of potable water.
5. New wells must be installed in accordance with the requirements of Ontario Regulation 903 (Wells). Water quality and quantity testing should be completed for each new parcel in accordance with MECP's "*Technical Guideline for Private Wells*" (1996) and conducted by a qualified professional. If water from test wells exhibit values for health and aesthetic parameters that are above the Ontario Drinking Water Standards, the water must be treated prior to consumption. Upon well installation, a qualified professional should also demonstrate that there is an adequate quantity of groundwater available to meet the requirements of the residence without interference to adjacent properties.
