2. Exploration Logistics and Detailed Information

Will explosives be used for any activity/activities? If yes describe in detail which activities require the explosives, where they will be stored, and any other relevant information.

N/A

What commodity or commodities are being sought in the work program?

Gold

How will you be transporting personnel to the exploration site for all activities? Describe in detail.

Crew will to staying in Red Lake and traveling to site via Highway 618 followed by an unnamed road onto site property.

How will you be mobilizing/demobilizing equipment to and from the exploration site for all activities? Describe in detail.

Crew and equipment will be mobilized from the town of Red Lake to site via highway 618, followed by an unnamed road which grants access to the eastern and western portions of the project where work will be completed. The drill will be floated in with a semi truck.

What type of equipment will you be using for all of the early exploration activities?

A5 diamond drill (or similar make), D4 dozer and/or excavator, pick up trucks and skidoos

What type of drilling will take place? (e.g. core drilling, reverse circulation)
NQ diamond core drilling

Do you anticipate the removal of the drill casing?

Yes No

If yes, when will you be removing it?

Immediately 3 to 6 months 6 to 12 months 1 to 2 years

For the exploration activities you have selected in your early exploration submission please fill in the associated details (required for all activities proposed). *

Are you planning to store fuel or other hazardous materials on the property? *

Yes No

Please provide any other information relevant to this project.

Work program is currently ongoing and so location of final drill holes is unknown, as such, we are covering all the potential target areas. We anticipate a ~3-5,000m NQ drill program with an average hole length of 350-500m with 1-2 drill holes per pad created (final drill pad number likely <10, but unknown at this time).
