

AMENDED ENVIRONMENTAL COMPLIANCE APPROVAL

NUMBER 3466-C7QPF6

Issue Date: April 10, 2026

Goulet Septic Pumping and Design Ltd.
18007 Headline Road
South Stormont, Ontario
K0C 1P0

Site Location: 4074 1st Line Road

Lot 30 and 31, Concession 8

Township of South Glengarry, United Counties of Stormont, Dundas and Glengarry

You have applied under section 20.2 of Part II.1 of the Environmental Protection Act , R.S.O. 1990, c. E. 19 (Environmental Protection Act) for approval of:

the use and operation of a Hauled Sewage Disposal Site which is limited to the spreading and temporary storage of Hauled Sewage, including:

one (1) 90 metre by 45 metre lined lagoon storage cell with a total capacity of approximately 10,000 cubic metres, for the temporary storage of Hauled Sewage;

two (2) Vertical Reed Filter Bed (VRFB) cells and one (1) Sand Drying Bed Filter (SDBF) cell, each 225 m², in accordance with the design and operations in "Supporting Documents for Application/or Provisional Certificate of Approval For Hauled Sewage Waste Disposal Site (Septage), December 5, 2007";

four (4) Vertical Reed Filter Bed (VRFB) cells, each 625 m², used in conjunction with the lagoon, located on Lot 31, Concession VIII, Township of South Glengarry, in accordance with the design and operations in "Proposal to Amend Ontario Ministry of the Environment Certificate of Approval for Hauled Sewage Waste Disposal Site Septage Reed Bed Expansion Design", dated June 14, 2010;

bar screen to be used during off-loading of Hauled Sewage to the lagoon storage cell, VRFB or SDBF cells;

a 17.3 hectare Hauled Sewage spreading Site comprised of fields referenced as fields #9, #10, #11, #12, #14, #15, #16, #17 and #18, on Figure 1 of the "Supporting Documents for Application for Provisional Certificate of Approval For Hauled Sewage

Waste Disposal Site (Septage), December 5, 2007"; and

spray irrigation system and/or a drip irrigation system.

All in accordance with Schedule "A".

Note: Use of the site for any other type of waste is not approved under this environmental compliance approval, and requires obtaining a separate approval amending this environmental compliance approval.

For the purpose of this environmental compliance approval, the following definitions apply:

a. "**Act**" means the *Environmental Protection Act*, R.S.O. 1990, c. E.19, as amended;

b. "**Approval**" means this entire Environmental Compliance Approval including its schedules, issued under section 20.3 of II.1 of the Act;

c. "**CWA**" means the *Clean Water Act, 2006*, S.O. 2006, c. 22, as amended;

d. "**Commercial, community or institutional use**" means any commercial, community or institutional use, including without limitation the use of land for;

i. an office building,

ii. a hotel, motel, hostel or similar type of accommodation,

iii. an overnight camp or overnight campgrounds,

iv. indoor recreational or sporting activities,

v. indoor gatherings for civic, religious or social purposes,

vi. indoor performing arts activities,

vii. a railway station, airport passenger terminal or other embarkation or debarkation point for travellers,

viii. a day care centre,

ix. educational purposes, including a school, college, university, private career college or associated residence,

x. a health care facility, or

xi. a penitentiary, jail or other place of custody or detention;

e. "**Company**" or "**Operator**" means Goulet Septic Pumping and Design Ltd., or its agents or assignees;

f. "**Director**" means any Ministry employee appointed by the Minister pursuant to Section 5 of the Act for the purposes of Part II.1 of the Act;

g. "**District Manager**" means the District Manager of the Ministry's Ottawa District Office;

h. "**Frozen**", when used in reference to soil, means that a layer of soil with an average minimum depth of five centimetres, located within the top 15 centimetres of the soil, is consolidated by the presence of frozen moisture;

i. "**Hauled Sewage**" is as defined in Reg. 347;

j. "**Hauled Sewage Disposal Site**" means a Hauled Sewage Disposal Site, the location and operation of which is approved by the Ministry;

k. "**Ministry**" means the Ministry of the Environment, Conservation and Parks;

l. "**NMA**" means the *Nutrient Management Act, 2002*, S.O. 2002, c. 4, as amended;

m. "**OWRA**" means the *Ontario Water Resources Act*, R.S.O. 1990, c. 0.40, as amended;

n. "**PA**" means the *Pesticides Act*, R.S.O. 1990, c. Pl I, as amended;

o. "**Reg. 347**" means *Regulation 347, General Waste Management R.R.O. 1990*, made under the Act, as amended;

p. "**Qualified Person**" means a person that is a professional engineer or hydrogeologist who has experience in assessment of potential impacts to Ground Water and Surface Water regimes;

q. "**Site**" means the location at Part of Lots 30 and 31, Concession 8, in the Township of South Glengarry;

r. “**Snow-covered**”, when used in reference to soil, means that there is a layer of snow with an average minimum depth of five centimetres; and

s. “**Suitably Trained Person**” means a person that a "Qualified Person" has trained for specific monitoring tasks such that the "Qualified Person" is confident that the "trained person" is sufficiently experienced to collect required data;

t. “**Surface Water**” means water found in lakes, ponds, rivers, streams, wetlands, swamps, artificial watercourses, intermittent watercourses and seasonally wet areas, including ditches and swales.

You are hereby notified that this environmental compliance approval is issued to you subject to the terms and conditions outlined below:

TERMS AND CONDITIONS

GENERAL

1.
 - a. The requirements of the Approval are severable. If any requirement of the Approval, or the application of any requirement of the Approval to any circumstance is held invalid, the application of such requirement to other circumstances and the remainder of the Approval shall not be affected in any way; and
 - b. The requirements specified in the Approval are the requirements under the Act. The issuance of the Approval in no way abrogates the Company's legal obligations to take all reasonable steps to avoid violating other applicable provisions of this legislation and other legislation and regulations.

2.
 - a. Except as otherwise provided by these conditions, the Site shall be operated in accordance with the application submitted

for the Approval and with the supporting documentation submitted to the Ministry as part of the application, all listed in Schedule "A";

b. The Company, any owner of the property comprising the Site and the Operator shall ensure the Site is operated in accordance with these conditions;

c. The Company shall ensure that all persons involved in handling of hauled sewage have been trained with respect to the terms, conditions and operating requirements of this Approval.

3. The Company shall ensure that any communication/correspondence made in relation to the Site or to the Approval includes reference to the Approval number.

4. The Company shall notify the District Manager in writing of any of the following changes within thirty (30) days of the change occurring:

a. change of owner of the property comprising the Site;

b. change of Operator; or;

c. change of Company or Company address.

5. In the event of any change in ownership of the Site, the Company shall forthwith notify in writing the succeeding owner of the existence of the Approval; and provide the successor with an up-to-date copy of the Approval and a copy of such notice shall forthwith be forwarded to the Director.

6. Without limiting the authority provided Provincial Officers under the Act, the OWRA, the PA, or the NMA, a Provincial Officer from the Ministry has the authority under those acts, at any reasonable time, without a warrant and with any reasonable assistance, to inspect all areas of the Site except living quarters and to require that any records required to be kept under any of those acts or the Approval be made available for inspection by that Provincial Officer upon request.

SPILL PREVENTION AND COMPLAINT PROCEDURES

7.

a. Prior to operating at the Site, the Company shall develop written procedures covering the following:

- i. spill prevention and clean up in the event of occurrence;
- ii. procedures for reporting to the Ministry, and municipal authorities as required, in the event a spill occurs at the Site;
- iii. complaint procedures for receiving and responding to public complaints, including what steps the Company will take to determine the cause of the complaint and what corrective measures may be taken to alleviate the cause and prevent its recurrence;
- iv. a list of the personnel responsible for operations at the Site;
- v. a list of equipment, material and personnel that will be available to deal with spills at the Site.

b. The Company shall ensure that all personnel involved in the operation of the Site are aware of the requirements of the Approval and are trained in the procedures outlined in Condition 7. a. of this Approval.

8. Spills and upsets that cause an adverse effect, spills that are likely to enter any "waters", as that term is defined in the OWRA, directly or through drainage structures,

or spills of greater than 100 litres on land accessible by the public, shall be immediately reported to the Ministry's Spills Action Centre at 1-800-268-6060 and the Company shall take appropriate remedial action to limit the impact. Information regarding all spills shall be recorded in the log book, referred to in Condition 33 of this Approval.

OPERATIONS

9. The Company must ensure that no off-site effects, such as vermin, vectors, odour, dust, litter, noise or traffic, result from the spreading, storage or disposal of Hauled Sewage at the Site. This condition does not reduce in any way the Company's obligations to comply with the Act and the OWRA.

10. No processed organic waste, grease trap waste or other waste, other than Hauled Sewage, shall be stored, spread or disposed of at the Site. No portable toilet or subject wastes as defined in Reg. 347 shall be spread, stored or disposed of at the site.

Hauled Sewage Storage Cell and Filter Beds

11. Subject to Conditions 12 to 17 - no Hauled Sewage shall be stored and/or processed pursuant to this Approval at the Site.

12. Hauled Sewage can be stored and/or processed for a period of one (1) year from the date of this Approval, including the following works:

- a. one (1) 90 metre by 45 metre lined lagoon storage cell with a total capacity of approximately 10,000 cubic metres, for the temporary storage of Hauled Sewage;
- b. two (2) Vertical Reed Filter Bed (VRFB) cells and one (1) Sand Drying Bed Filter (SDBF) cell, each 225 m², in accordance with the design and operations in "Supporting Documents for Application/or Provisional Certificate of Approval For Hauled Sewage Waste Disposal Site (Septage), December 5, 2007";
- c. four (4) Vertical Reed Filter Bed (VRFB) cells, each 625 m², used in conjunction with the lagoon, located on Lot 31, Concession VIII, Township of South Glengarry, in accordance with the design and operations in "Proposal to

Amend Ontario Ministry of the Environment Certificate of Approval for Hauled Sewage Waste Disposal Site Septage Reed Bed Expansion Design", dated June 14, 2010;
d. bar screen to be used during off-loading of Hauled Sewage to the lagoon storage cell, VRFB or SDBF cells;

13. The Hauled Sewage lagoon storage cell shall be operated in such a manner as to maintain a minimum freeboard of not less than 0.67 meters (2 feet) at all times.

14. If the minimum required freeboard is not maintained the company shall notify the District Manager in writing within 7 business days of observing the failure to meet Condition 13, and shall include in the report, measures that will be taken to be compliant with Condition 13 of this Approval.

15. The Company shall ensure that a qualified employee conducts regular visual inspection of the storage cell and Site to ensure that the Site is secure, to identify any operational issues that require attention, to assess the integrity of the storage cell, and ensure there are no off-site impacts (including odours) resulting from the operation of the facility.

16. A log book shall be maintained wherein the findings of the inspections required in Condition 15 will be documented. The log book shall include the date of each inspection; the name of the employee conducting the inspection; observations made during the inspection; and any operational concerns.

17. The Company can continue to store and/or process hauled sewage at the works described in Condition 12 beyond the one year specified in Condition 12 provided the Company submits a separate application and supporting documentation to the Ministry and receives the Director's approval.

Hauled Sewage Disposal Area

18. Drip irrigation pipes may be covered with up to 15 cm of soil or other cover material but shall not be buried.

19. No spray irrigation will be conducted when wind direction and speed conditions may result in the movement of the spray off-site.

20. Spreading of Hauled Sewage shall not be carried out between December 1st and March 31st.

21. No Hauled Sewage shall be spread or disposed of at the Site when the ground is Frozen, ice-covered or Snow-covered.

22. The Hauled Sewage disposal area shall be operated at all times in a manner that precludes the ponding, run-off, or aerosol drift of Hauled Sewage, either spread or sprayed on the Site beyond the limits of the approved Hauled Sewage disposal area.
23. The effluent spray irrigation system shall be operated in such a manner that the average rate of effluent applied to the approved Hauled Sewage disposal area shall not exceed the average effluent application rate of 15 liters/m² (150 m³ /ha) per seven (7) day period.
24. Hauled Sewage shall only be spread at the Site at the lower of fifteen (15) litres per square meter per seven (7) days or such other lower rate which ensures that ponding at, puddling on, or run-off from the Site does not occur.
25. The Company shall make all reasonable effort to ensure that the application of Hauled Sewage to individual irrigation sites within the approved Hauled Sewage disposal area, and rotation of the irrigation sites, is carried out in a manner that maximizes evapotranspiration and allows the soil to dry out periodically.
26. Spreading of Hauled Sewage is prohibited in any areas at the Site where the activity is or would be a “significant drinking water threat” as defined under the CWA .

AGRICULTURAL USE OF SPREADING AREAS

27. It is the responsibility of the Company to ensure that the future intended uses of the Site are known and to make decisions for spreading based on this information. The use of the area used for the spreading of Hauled Sewage at the Site is limited as follows:

- a. harvest of crops for domestic consumption for this area shall not occur within twelve (12) months, and only after working the Hauled Sewage into the soil;
- b. grazing of livestock shall not occur at this area within six (6) months of Hauled Sewage application;
- c. feed crop harvests shall not occur at this area within three (3) weeks of Hauled Sewage application; and
- d. commercial sod harvest shall not occur at this area within twelve (12) months of Hauled Sewage application.

MONITORING AND REPORTING

28. The Company must retain a Qualified Person or Suitably Trained

Person to oversee an Annual Monitoring program which must include the following:

a. Measure water levels of all ground water monitoring wells identified in Supporting Document *"Proposal to Amend Ontario Ministry of the Environment Certificate of Approval for Hauled Sewage Waste Disposal Site Septage Reed Bed Expansion Design "*, dated June 14, 2010", during high (April/May) and low (August/September) water table conditions.

b. Sample the five (5) ground water monitoring wells identified in supporting document *"Proposal to Amend Ontario Ministry of the Environment Certificate of Approval for Hauled Sewage Waste Disposal Site Septage Reed bed Expansion Design"*, dated June 14, 2010, during high (April/May) and low (August/September) water table conditions and have an accredited laboratory analyze the samples for chloride, nitrate, Total Kjeldahl Nitrogen (TKN), nitrite, ammonia, conductivity, BODS, COD, alkalinity, pH.

c. Collect downstream and upstream surface water grab samples, one (1) in each month of June, August and October, at locations indicated in the *Ministry of the Environment Memorandum* dated July 20, 2010, prepared by Gillian Dagg-Foster and samples shall be analyzed by an accredited laboratory for BOD5, COD, Chlorides, conductivity, $\text{NH}_3^- \text{N}$, $\text{NO}_3^- \text{N}$, pH, Total Phosphorus, Total Suspended Solids, and E.coli. For each grab sample collected in the field Temperature and pH

data must be recorded.

29. Sampling required in Condition 28 may be performed by a Qualified Person or Suitably Trained Person of Goulet Septic Pumping & Design.

30. The sampling program may be amended by the District Manager from time to time, and where changes are required or authorized by the District Manger changes to the sampling program must be implemented.

31. Any change in the method of operation, changes to the approved property, or changes to use of adjacent lands that occur during the period of this Approval shall be reported forthwith in writing to the District Manager.

32. The Company shall submit to the District Manager, no later than March 31st of each year, one (1) electronic copy of the Annual Report. The Annual Report will include:

a. a description of all operational difficulties encountered during the preceding year, as related to the handling and disposal of Hauled Sewage materials, and corrective action taken;

b. a summary of volume of Hauled Sewage disposal on each field for the current year and the four preceding years;

c. For the reporting year a summary of total volume of Hauled Sewage collected; total volume of Hauled Sewage disposed of in the lagoon storage cell, Reed Beds and Sand Filter Bed; total volume of Hauled Sewage disposed of directly on spreading site, along with the application rate based on litres per square meter per seven (7) day period; total volume of portable toilet waste collected and disposed of at an approved Sewage Treatment facility; and estimate

of total volume of Hauled Sewage solids removed from the storage cell and applied to the site;

d. a report, appendix to the Annual Report, prepared by a Qualified Person or Suitably Trained Person, which includes:

- i. the results of all ground water quality analysis and surface water sampling conducted as per Condition 28 of this Certificate as amended by the District Manager from time to time;
- ii. interpretation of monitoring data;
- iii. assessment of the site with respect to reasonable use according to the Ministry 's Guideline B-7;
- iv. conclusions and recommendations pertaining to the ground water and surface water sampling programs;
- v. borehole logs for all monitoring wells; and
- vi. detailed and scaled site plan(s) for disposal area, indicating property

boundaries, lagoon location, monitoring well location and ground water flow direction, surface water and drainage ditches in the vicinity of the site.

33. The Company shall maintain written records in the log book detailing the following:

- a. a complete and up-to-date record showing, where, when and how much Hauled Sewage was spread, stored or disposed of at the Site;
- b. the nature of any spill or upset occurring at the Site and the actions taken to clean-up the spill or upset and the steps taken to prevent a re-occurrence;
- c. all complaints received related to the Site or its operations and any actions taken to address complaints;
- d. A record of all inspections conducted at the site, as required in Condition 16; and
- e. The person responsible for the log book entry and operations related to the activity documented.

FINANCIAL ASSURANCE

34. The Company shall maintain the financial assurance, as defined in Section 131 of the Act, in the amount of \$51,817.00. This financial assurance shall be in a form acceptable to the Director and shall provide sufficient funds for the analysis, transportation, Site clean-up, monitoring and disposal of all quantities of waste on the Site at any one time.

35. The Company shall submit to the Director a re-evaluation of the amount of the Financial Assurance to facilitate the actions required under Condition 34 at the time of submission of the separate application referenced in Condition 17, and at intervals of five (5) years thereafter. The re-evaluation shall include an assessment based on any new information relating to the environmental conditions of the Site and shall include the costs of additional monitoring and/or implementation of contingency plans required by the Director upon review of the closure plan and annual reports. The Financial Assurance must be submitted to the Director within twenty (20) days of written acceptance of the re-evaluation by the Director;

36. The amount of Financial Assurance is subject to review at any time by the Director and may be amended at his/her discretion. If any Financial Assurance is scheduled to expire or notice is received indicating Financial Assurance will not be renewed, and satisfactory methods have not been made to replace the Financial Assurance at least sixty (60) days before the Financial Assurance terminates, the Company shall forthwith replace the Financial Assurance with cash.

CLOSURE

37. Where the site will be closed and no longer used for storage or disposal of Hauled Sewage in accordance with this Approval, provide the Director and District Manager written notice of the intent to close the site a minimum of 90 days in advance of operations ceasing.

CESSATION DATE OF WASTE SPRAYING OR SPREADING

38. The Company shall not spray or spread Hauled Sewage or thickened Hauled Sewage solids from the Hauled Sewage storage cell after the date listed as the cessation of waste spraying or spreading date listed in Condition 40 below.

Construction of any portions of the works approved in this Approval is prohibited beyond March 31, 2031, without renewal of this Approval.

39. By no later than six (6) months prior to the cessation of waste acceptance date, the Company shall notify the Director of whether it intends to cease operations at the Site or whether it intends to submit an application to the Ministry for an amendment to the Approval to extend the cessation of waste spraying or spreading date.

40. The cessation of waste spraying or spreading date for this Approval is March 31, 2031.

SCHEDULE "A"

This Schedule "A" forms part of this Approval:

1. Application for Approval of Hauled Sewage dated April 30, 2015 and supporting documents Figure 1 and Figure 2.

2. Application for Approval of Hauled Sewage (septage), Sewage Biosolids and Other

Wastes dated June 14, 2010, and supporting document "*Proposal to Amend Ontario Ministry of the Environment Certificate of Approval for Hauled Sewage Waste Disposal Site Septage Reed Bed Expansion Design*" dated June 14, 2010, and prepared by Chris Kinsley and Jessica Worley, University of Guelph.

3. The following supporting documents to the Application for Approval of Hauled Sewage (septage), Sewage Biosolids and Other Wastes" dated December 5, 2007;

a. "*Goulet Septage Dewatering Pilot Project Interim Report, January 10, 2006*

", prepared by Chris Kinsley, Alfred Campus, University of Guelph, which includes design specifications of the two (2) Reed Beds and one (1) Sand Filter Bed, each experimental reed beds and the evaluation protocol for assessing the effectiveness of the reed beds;

b. Proposed Septage Lagoons Conceptual Design, Trow Consulting Engineers Ltd., dated April 4, 2002, including a Hydrogeological Investigation - Goulet Pumping Green Valley, Ontario, which included one copy of Trow Consulting Engineers Ltd.'s schematic diagram #M015338A, delineating Rene Goulet Septic Pumping Proposed Holding Lagoon, as amended by Rene Goulet to indicate actual lagoon location; log of borehole data from Trow Consulting Engineers, for MW1, MW2, MW3 and MW4, drill date of August 1, 2002; and Grain Size Analysis, prepared by Trow Consulting Engineers Ltd., for sample date 02/01/02;

c. Managed Forest Plan for the septage disposal site, indicating use of property and ownership of property, commencing January 1 , 2005;

d. Letter from the Ontario Ministry of the

Environment, dated December 11, 2000, which states that the Disposal Site referenced in this Approval may receive septic waste from residential septic waste generated in the Province of Quebec, and a letter dated January 29, 2001, from the Quebec Ministry of the Environment stating that Rene Goulet can pick up Hauled Sewage (septage) within the Province of Quebec, in accordance with the Province of Ontario; and
e. "Planting Program Map 3" dated October 1, 2007, depicting area residences; the McDougall Drain, and forested areas for each spreading field.

4. Letter dated December 5, 2007, and signed by Brenda Goulet, showing that Brenda Goulet, part owner of Lot 30 and owner of Lot 31, has no objection to the spreading of Hauled Sewage on those lands.
5. Application for Approval of Hauled Sewage (septage), Sewage Biosolids and Other Wastes, dated June 20, 2020, and signed by Rene Goulet of the Company.
6. Letter dated July 6, 2020, providing background information on the project, from Rene Goulet of the Company.
7. Emails dated September 1, 2020, November 19, 2020, November 26, 2020, February 1, 2021, March 10, 2021, July 5, 2021, November 8, 2021, and December 15, 2021, providing additional information and documentation, from Rene Goulet and Jessica Goulet of the Company.
6. Environmental Compliance Approval Application, dated September 2, 2025, and signed by Albert Renaud of the Company.
7. Emails dated September 26, 2025, September 30, 2025, October 6, 2025, October 7, 2025, October 9, 2025, October 17, 2025, October 22, 2025, December 5, 2025, December 17, 2025, March 3, 2026, March 12, 2026, March 13, 2026, March 15, 2026, March 20, 2026, March 25, 2026, and March 26, 2026, providing additional information and documentation, from Albert Renaud of the Company.

The reasons for the imposition of these terms and conditions are as follows:

1. The reason for Conditions 1, 2, 3, 4, 5, 6 and 8 is to clarify the legal rights and responsibilities of the Company.
- 2.
3. The reason for Conditions 7, 15, 16 and 33 is to ensure that staff can identify Site problems and deal promptly and effectively with any spills and upsets, and any public complaints that may occur.
- 4.
5. The reason for Conditions 9, 10 and 19 is to ensure that the Site is operated in a manner which does not result in a nuisance or a hazard to the health and safety of the environment or people.
- 6.
7. The reason for Conditions 11, 12, 13, 14 and 17 is to ensure Hauled Sewage is stored in a manner that minimizes the likelihood of spills and that does not present a hazard to the health and safety of the environment or people.
- 8.
9. The reason for Conditions 18, 19, 20, and 23 is to ensure that land application restrictions are established based on the slope of land, type of soil and the period of use in any calendar year to promote the seepage of hauled sewage down into the underlying overburden. The prohibitions will prevent Hauled Sewage spreading when there is a risk of runoff.
- 10.
11. The reason for Conditions 21, 22 and 25 is to ensure Hauled Sewage application is not to take place at times when the ground is saturated or when runoff could occur.
- 12.
13. The reason for Condition 24 is to ensure that loading rates on the soil are strictly controlled for Hauled Sewage.
- 14.
15. The reason for Condition 26 is to ensure Hauled Sewage application does not take place in areas where the activity is considered to be a significant drinking water threat under the CWA.
- 16.
17. The reason for Condition 27 is to ensure that there is an adequate time lapse between the use of an area for disposal of Hauled Sewage and the use of the area for the specified land uses so that animals and harvest crops are not exposed to residual substances of concern associated with the hauled sewage disposal.
- 18.
19. The reason for Conditions 28, 29 and 30 is to ensure that the Hauled Sewage disposal does not have an impact on the ground water aquifer and to ensure that the surface water discharged to the environment does not have an impact on the environment.
- 20.
21. The reason for Conditions 31 is to ensure that the Site is operated in accordance with the application and supporting information submitted by the Company, and not in a manner which the Director has not been asked to consider.
- 22.
23. The reason for Condition 32 and 38 is to ensure a periodic review of the site operations and monitoring data to ensure the Site operations and associated impacts have not resulted in adverse effects on the land as a consequence of continuous long term use.
- 24.
25. The reason for Conditions 34, 35, and 36 is to approve the Company's Financial Assurance re-evaluation and to ensure that sufficient funds are available to the Ministry to clean up the Site in the event that the Company and/or any future owners are unable or unwilling to do so.
- 26.
27. The reason for Condition 37 is to ensure that the Director and District Manager is aware of

changes in land use.

28.

29. The reason for Conditions 38, 39 and 40 is to ensure a periodic review of the instrument occurs to ensure the Site operations and associated impacts have not resulted in adverse effects on the land as a consequence of continuous long-term use.

Upon issuance of the environmental compliance approval, I hereby revoke Approval No(s). 3466-C7QPF6 issued on January 19, 2022

In accordance with Section 139 of the *Environmental Protection Act*, you may by written notice served upon me, the Ontario Land Tribunal and in accordance with Section 47 of the *Environmental Bill of Rights*, 1993, the Minister of the Environment, Conservation and Parks, within 15 days after receipt of this notice, require a hearing by the Tribunal. The Minister of the Environment, Conservation and Parks will place notice of your appeal on the Environmental Registry. Section 142 of the *Environmental Protection Act* provides that the notice requiring the hearing ("the Notice") shall state:

- a. The portions of the environmental compliance approval or each term or condition in the environmental compliance approval in respect of which the hearing is required, and;
- b. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

Pursuant to subsection 139(3) of the *Environmental Protection Act*, a hearing may not be required with respect to any terms and conditions in this environmental compliance approval, if the terms and conditions are substantially the same as those contained in an approval that is amended or revoked by this environmental compliance approval.

The Notice should also include:

1. The name of the appellant;
2. The address of the appellant;
3. The environmental compliance approval number;
4. The date of the environmental compliance approval;
5. The name of the Director, and;
6. The municipality or municipalities within which the project is to be engaged in.

And the Notice should be signed and dated by the appellant.

This Notice must be served upon:

Registrar*
Ontario Land Tribunal
655 Bay Street, Suite 1500
Toronto, Ontario
M5G 1E5
OLT.Registrar@ontario.ca

and

The Minister of the Environment,
Conservation and Parks
777 Bay Street, 5th Floor
Toronto, Ontario
M7A 2J3

and

The Director appointed for the purposes of
Part II.1 of the *Environmental Protection Act*
Ministry of the Environment, Conservation
and Parks
135 St. Clair Avenue West, 1st Floor
Toronto, Ontario

* Further information on the Ontario Land Tribunal's requirements for an appeal can be obtained directly from the Tribunal at: Tel: (416) 212-6349 or 1 (866) 448-2248, or www.olt.gov.on.ca

This instrument is subject to Section 38 of the *Environmental Bill of Rights*, 1993, that allows residents of Ontario to seek leave to appeal the decision on this instrument. Residents of Ontario may seek leave to appeal within 15 days from the date this decision is placed on the Environmental Registry. By accessing the Environmental Registry at <https://ero.ontario.ca/>, you can determine when the leave to appeal period ends.

The above noted activity is approved under s.20.3 of Part II.1 of the *Environmental Protection Act*.

DATED AT TORONTO this 10th day of April, 2026

Mohsen Keyvani, P.Eng.

Director

appointed for the purposes of Part II.1 of the
Environmental Protection Act
