

Project Description – Methuen Township Marble

Methuen Township Marble

Summary

- *The applicant intends to undertake exploration of the unpatented mining claims for marble.*
- *Proposed drilling sites are indicated on the map attached to this application. The bulk sample will then be obtained based on evaluated drilling results.*
- *Proposed start date in the summer work season of 2026, pending permit issuance.*
- *Access to the site will be gained via County road 504 East from Apsley ON and McCoy Rd.*
- *There is no history of mining or exploration on the area covered by the claims*
- *The area appears to have been logged several decades ago. Mature regrowth is present throughout the claim block*
- *McCoy road currently provides access to 3 hunt camps in the area, as well as cottages on Jack Lake. We anticipate minimal to no disruptions to these existing activities.*
- *The applicant should be able to undertake the initial fieldwork in 2026; subsequent work will depend on the initial results.*
