2. Exploration Logistics and Detailed Information

Will explosives be used for any activity/activities? If yes describe in detail which activities require the explosives, where they will be stored, and any other relevant information.

No

What commodity or commodities are being sought in the work program?

Au, Cu, Zn

How will you be transporting personnel to the exploration site for all activities? Describe in detail.

Using existing established resource logging roads that branch off to exploration trails leading to the claim area. A historical cut exploration trail exists that leads to the west property boundary. An exploration trail will need to be made from the property boundary to access the claims of interest and trenching locations (red on submitted amp).

How will you be mobilizing/demobilizing equipment to and from the exploration site for all activities? Describe in detail.

Trenching equipment will be trailered using the main resource road north of the property claims. Then unloading the equipment at the west property boundary. From here equipment will be driven to the trenching areas.

What type of equipment will you be using for all of the early exploration activities?

Track excavator and or bulldozer for trenching and trail construction. ATVs for personnel and small equipment.

What type of drilling will take place? (e.g. core drilling, reverse circulation)

Do you anticipate the removal of the drill casing?

☐ Yes ☒ No

If yes, when will you be removing it?

☐ Immediately ☐ 3 to 6 months ☐ 6 to 12 months ☐ 1 to 2 years

For the exploration activities you have selected in your early exploration submission please fill in the associated details (required for all activities proposed). *
