9. Provincial Policy

9.1 Is the proposal consistent with the **Provincial Policy Statement (PPS)** issued under subsection 3(1) of the *Planning Act* (see Appendix A for more details)? *

☒ Yes ☐ No

9.2 Explain how the application is consistent with the PPS. Attach a separate page if necessary.

Section 1.1.6.1 of the Provincial Policy Statement (Territory Without Municipal Organization) supports, on rural lands located in territory without Municipal organization, development activity that is related to the sustainable management or use of resources and resource-based recreational uses, including recreational dwellings.

This application is for the transfer of a piece of land that currently has a recreational cottage, to the adjoining land that also has an existing recreational cottage.

9.3 **Table A** is a checklist (not a substitute for the Provincial Policy Statement) to assist in identifying areas of provincial interest that may apply to your application.

Please fill in the appropriate rows in **Table A**, if any apply.

10. Provincial Plans

10.1 Is the subject land for the proposed development located within an area of land designated in any provincial plan? *

☐ Yes ☒ No

10.2 If yes, identify which provincial plan(s) and explain the current designation(s) of the subject land(s).

10.3 If yes, does the proposal conform/not conflict with the policies contained in the provincial plan(s)? *

☐ Yes ☐ No

If yes, please explain. Attach a separate page, if necessary. Submit a copy of the planning report, if applicable.

11. Servicing

11.1 Subject Lands

Indicate in a) and b) the proposed type of servicing for the subject land. Select the appropriate type of servicing from Table B. If servicing is private, please indicate the type of private servicing.

11.1 a) Indicate the proposed type of sewage disposal system – whether sewage disposal will be provided to the subject land by a publicly owned and operated sanitary sewage system, a privately owned and operated individual or communal septic system or other means? *

Private Services

11.1 b) Indicate the proposed type of water supply system – whether water will be provided to the subject land by a publicly owned and operated piped water system, a privately owned and operated individual or communal well, a lake or other water body or other means? *

Private Services

11.2 Retained Lands

Indicate in a) and b) the proposed type of servicing for the retained lands. Select the appropriate type of servicing from Table B. If servicing is private, please indicate the type of private servicing.

11.2 a) Indicate the proposed type of sewage disposal system – whether sewage disposal will be provided to the retained land by a publicly owned and operated sanitary sewage system, a privately owned and operated individual or communal septic system or other means? *

Private Services

11.2 b) Indicate the proposed type of water supply system – whether water will be provided to the retained land by a publicly owned and operated piped water system, a privately owned and operated individual or communal well, a lake or other water body or other means? *

Private Services

11.3 Hauled Sewage

If development is proposed on privately owned and operated individual or communal septic system, provide confirmation that there is adequate reserve sewage treatment capacity for hauled sewage (septage) resulting from the proposed development. See Table B below.

Both the retained and severed lands have existing septic field systems that are serviced by Lake of the Woods Septic Barge. The Northwestern Health Unit has issued approval for construction of a septic field on the receiving parcel to accommodate the cottage on the parcel being added.

Table B – Sewage Disposal and Water Supply

	Type of Servicing	Reports/Information Needed
Sewage Disposal	a) Publicly owned and operated sanitary sewage system	Applicants must provide evidence in their application that there is municipal confirmation of sufficient uncommitted reserve sewage system capacity to service the development at the time of conditional consent.
	b) Public communal septic	Development generating effluent of more than 4,500 litres per day may need a servicing options study and hydrogeological report.
	c) Privately owned and operated individual septic system	If the requested change would permit development on individual or communal septic system and more than 4,500 litres of effluent would be produced per day as a result of the development being completed, a servicing options report and a hydrogeological report may be needed. If proposal would produce effluent less than 4,500 litres per day, a hydrogeological report may be needed.
	d) Privately owned and operated communal septic system	If the requested change would permit development on individual or communal septic system and more than 4,500 litres of effluent would be produced per day as a result of the development being completed, a servicing options report and a hydrogeological report may be needed. If proposal would produce effluent less than 4,500 litres per day, a hydrogeological report may be needed.
	e) Privy	Provide details on location and size of out-houses.
	f) Other	Please describe.
Hauled Sewage		If development is proposed on privately owned and operated individual or communal septic systems, applicant must provide evidence in the application showing either: i) municipal confirmation of sufficient uncommitted reserve sewage system capacity for treatment of septage resulting from the proposed development; OR ii) confirmation (i.e., letter) from a commercial enterprise (private provider) for hauled sewage (septage) indicating that capacity is available to accommodate the specific proposal.
Water Supply	a) Publicly owned and operated piped water system	Applicants must provide evidence in their application that there is municipal confirmation of sufficient reserve water system capacity to service the development at the time of conditional consent.
	b) Privately owned and operated individual well	Development on communal or individual well system may need a servicing options report and a hydrogeological report. Non-residential development on communal well system may need a hydrogeological report.
	c) Privately owned and operated communal well	Development on communal or individual well system may need a servicing options report and a hydrogeological report. Non-residential development on communal well system may need a hydrogeological report.
	d) Lake	A Permit to Take Water may be required. Contact your regional Municipal Services Office and the Ministry of Environment, Conservation and Parks office for guidance.
	e) Other water body	Please describe.
	f) Other means	Please describe.

Notes

1. To facilitate review of the application, submit a letter from the municipality to show concurrence (or not) with the recommendations in the servicing options report.
2. Before undertaking a hydrogeological report, consult MMAH for advice given the location of the subject land.
3. Where communal services are proposed (water and/or sewage), ownership of these services must be assumed by the municipality or a public body through a signed letter of acceptance.
4. To facilitate review of the application, submit a letter from the local health unit indicating that the site is developable and could accommodate the proposal.
5. A building permit is required for septic systems under Part 8 of the Building Code. See Appendix A.

12. Access

12.1 The proposed road access would be by: *

[Water access only](#)

Note: (See **Appendix A** for information on MTO Access Permits)

Certain type of development is not permitted on seasonally maintained roads.

Early consultation with your regional MSO is recommended.

12.2 Additional details on "other public road" and "right-of-way"

Would proposed road access be by:

☐ Crown road ☐ Local roads board ☐ Private road

12.3 If access to the subject land is by "other public road" or "right-of-way", or private road, indicate:

i) The owner of the land or road

ii) Who is responsible for maintenance

iii) Whether maintenance is seasonal or year round

Note: Access by right-of-ways and/or private roads are not usually permitted, except as part of a condominium.

12.4 Is water access ONLY proposed? *

☒ Yes ☐ No

If yes, on a separate page, describe i) the parking and ii) docking facilities to be used and the approximate distance of these facilities from the subject land and the nearest public road access.

☒ Attached

You may be required to provide a letter from the owner(s) of a commercially operated parking and docking facility indicating that capacity is available to accommodate your specific proposal.

13. Proposal Waste Disposal

13.1 Garbage disposal is proposed to be by:

☐ Garbage collection ☒ Municipal dump ☐ Crown landfill ☐ Other

13.2 Other Services Please check the other services available and the provider(s) of these services.

Services	Provider
☒ Electricity	Hydro One
☐ School bussing	n/a

14. Sketch: Use the attached sketch sheet.

To help you prepare the sketch, refer to the attached sample sketch.

14.1 The application shall be accompanied by a sketch showing, in **metric units**, the following:

- The boundaries and dimensions of the subject land, the part that is intended to be severed and the part that is intended to be retained;
- The location, size and type of all existing and proposed buildings and structures on the subject land, including their setback from the front yard, rear yard, side yard and opposite side yard;
- The boundaries and dimensions of any land abutting the subject land that is owned by the owner of the subject land;
- The approximate distance between the subject land and the nearest township lot line or landmark, such as a railway crossing or bridge;
- The location of all lands previously severed from the parcel originally acquired by the current owner of the subject land;
- The approximate location of all natural and artificial features on the subject land and adjacent lands that, in the opinion of the applicant, may affect the application, such as buildings, railways, roads, watercourses, drainage ditches, river or stream banks, wetlands, wooded areas, wells and septic tanks;
- The current use(s) on land that is adjacent to the subject land;
- The location, width and name of any roads within or abutting the subject land, indicating whether it is an unopened road allowance, a public travelled road, a private road or a right of way;
- If access to the subject land is by water only, the location of the parking and boat docking facilities to be used;
- The location and nature of any easement affecting the subject land;
- The severed parcel, the date of transfer, the name of the transferee and the use of the land.

15. Other Information

15.1 Is there any other information that may be useful to the ministry in reviewing this application (e.g., information relating to the requirements and policies in the municipal official plan or efforts made to resolve outstanding objections or concerns by area resident(s), the municipality, other)?

If so, explain below or attach a separate page with this information.

[see attached summary](#)

15.2 The original or certified copy of any other information and materials, as required by the official plan of the municipality/ planning board, must be provided with this application.

15.3 Where applicable and relevant information is available in a planning report submitted to council, or in a technical study/ report(s) prepared for the proposal, please provide the name, section and page number if you have referenced the study/ report(s) in any of the questions above.

15.4 Include a copy of the agreement of purchase and sale for the proposed severed lands and a statement from a lawyer certifying that there are no abutting lands.

Application for Consent-Lot addition
Espapeka Island, Lake of the Woods, Kenora District
Louise and Jeff Gill

Espapeka Island is located on Lake of the Woods, Ontario approximately 4 kilometres southwest of the City of Kenora, Ontario.

The island is owned by two families (Gill and Blatt) and is used for seasonal recreational cottaging.

The island is located in the District of Kenora in a Territory without Municipal Organization ie. unorganized territory: as such, there are no planning documents or local organization that guides development.

The applicants (Gill) are registered owners of 2 separate parcels on the east side of the island (part 1 and parts 2-3). This application for consent is a lot addition, with approximately 0.16 hectares (Part 3) proposed to be severed from Parts 2-3 and added to the Blatt property (PIN's 421501432 and 421501434). Part 2 will be merged with Part 1, creating a parcel of about 0.70 hectares in size. The lot addition to the Blatt property will create a parcel of about 1.62 hectares. There are existing cottages on each of Gill's Part 1, 2 and 3.

There are septic fields on Parts 1 and 2, with the field on Part 2 servicing the cottages on Parts 2 and 3. The Northwestern Health Unit has approved installation of a septic field on Blatt property (PIN 42150-1432) to service the existing cottage on Part 3 (PIN 42150-1433) that is being transferred to the Blatt parcel. The Blatt property has an existing cottage with septic field. The septic fields are serviced by Lake of the Woods Septic Barge.

No new development is proposed, except for a new septic system for the cottage on Part 3 (PIN 42150-1433), with the field being built on Blatt property (PIN 42150-1432).

The septic field on Part 2 that will continue to service the cottage on Part 2, extends slightly onto Part 3, an area estimated at 105 metres square (approximately 16 metres by 6.5 metres). If the lot addition is approved, the final survey will include this area in the land to be retained with Part 2. The lot boundary will be 18 feet from the septic tile field on Part 2, as directed by Northwestern Health Unit staff.

The attached sketch shows the locations of septic fields and cottages on the various parts.

Cottages use water service from the lake, electrical service from Hydro One. Domestic garbage is taken to the City of Kenora Waste Transfer Station.

The applicants currently use mainland parking and docking facilities at Nethercutt Docking in Kenora, and the party receiving the lot addition (Blatt) use mainland parking and docking at Tall Pines Marina in Kenora .

The purpose for the lot addition is to facilitate the purchase of the existing cottage on Part 3 (sale by Gills to Blatts).

Flowage Easement

Flowage easements as required by the Lake of the Woods Control Board will be registered on all lots.

Indigenous Coordination and Engagement

The properties in question are patented land, not Provincial Crown Land.

As this application for a lot addition will not change existing uses of recreational cottages on the island and there is no new development planned as part of the application, the potential impact on the exercise of Aboriginal or treaty rights is assessed to be minimal.

Information summarizing the proposal has been emailed to Chief Chris Skead of Wauzhushk Onigum Nation on July 13, 2026, and sent by postal mail on July 13, 2026 to Chief Dolores Sinclair of Washagamis Bay First Nation and Chief Elijah Jameson of Niisaachewan Anishinabe Nation. Follow-up telephone messages were left with each of the Chiefs on July 23, 2026.

Copies of the letters and information provided is attached.

This application for consent is consistent with the Ontario Provincial Policy Statement, 2020 (PPS). Section 1.1.6 of the PPS addresses 'Territory Without Municipal Organization'. Section 1.1.6.1 states that 'On rural lands located in territory without municipal organization , the focus of development activity shall be related to the sustainable management or use of resources and resource-based recreational use (including recreational dwellings). Section 1.1.6.4 of the PPS again states that 'In areas adjacent to and surrounding municipalities, only development that is related to the sustainable management or use of resources and resource-based recreational uses (including recreational dwellings) shall be permitted. All the lots on Espapeka Island will continue to be used for seasonal recreational cottaging.

Espapeka Island is located within the Northern Peninsula Area (G2603) of the Ontario Ministry of Natural Resources and Forestry Crown Land Use Policy Atlas. Land use intent for this area is that general recreation will be the dominant use, and that future development proposals will recognize and accommodate the recreational role of the area. Recreational cottaging is a permitted use, and private cottage lots are suggested to have minimum frontages of 46 metres and depths of 90 metres. This application for consent satisfies these recommendations.
