Charlottesville, US, VA 22911**

Dear Mr. Sutcliffe,

Re: Exploration Permit Application, PR-26-000062, Wabassi Project N-Grid Venton Lake Area; Northwest

I am writing to update you on the status of the above-mentioned Exploration Permit application.

A decision was made to end the temporary hold due to wildfires, that was placed on the Exploration Permit application process, allowing for a final decision to be made.

Attached is your Exploration Permit, **PR-26-000062**, issued pursuant to subsection 78.3(2) of the *Mining Act*, R.S.O. 1990, Chapter M.14. This permit, which includes the attached map identifying the areas in which the early exploration activities authorized under the permit may occur and the attached Activity Details Report, is subject to the requirements of the *Mining Act*, Ontario Regulation 308/12, the applicable Provincial Standards for Early Exploration and any additional Terms and Conditions in the permit that are specific to your project. Please note that the attached Exploration Permit is effective for a period of three (3) years.

If there are changes to any names or addresses on the permit, please advise the Ministry of Energy and Mines (the “Ministry”) staff member noted below. Note that any Exploration Permit is binding upon and enforceable against any transferee, assignee, or successor of the person to whom the permit was issued. If you would like to make changes to the exploration activities such as the type of activity, location of activity or scale of the work, please contact the Ministry for further direction.

If you have any further questions, please do not hesitate to contact Erik Petersen, Mineral Exploration and Development Consultant, at 807-631-5915, or by e-mail to erik.petersen@ontario.ca.

Sincerely,

Chad Anderson

Director of Exploration

Enclosures:

- *Exploration Permit*
- *Maps*
- *Activity Details Report*
