10. Provincial Plans

10.1 Is the subject land for the proposed development located within an area of land designated in any provincial plan? *

☐ Yes ☑ No

10.2 If yes, identify which provincial plan(s) and explain the current designation(s) of the subject land(s).

10.3 If yes, does the proposal conform/not conflict with the policies contained in the provincial plan(s)? *

☐ Yes ☐ No

If yes, please explain. Attach a separate page, if necessary. Submit a copy of the planning report, if applicable.

11. Servicing

11.1 Subject Lands

Indicate in a) and b) the proposed type of servicing for the subject land. Select the appropriate type of servicing from Table B. If servicing is private, please indicate the type of private servicing.

11.1 a) Indicate the proposed type of sewage disposal system – whether sewage disposal will be provided to the subject land by a publicly owned and operated sanitary sewage system, a privately owned and operated individual or communal septic system or other means? *

Private Services

11.1 b) Indicate the proposed type of water supply system – whether water will be provided to the subject land by a publicly owned and operated piped water system, a privately owned and operated individual or communal well, a lake or other water body or other means? *

Private Services

11.2 Retained Lands

Indicate in a) and b) the proposed type of servicing for the retained lands. Select the appropriate type of servicing from Table B. If servicing is private, please indicate the type of private servicing.

11.2 a) Indicate the proposed type of sewage disposal system – whether sewage disposal will be provided to the retained land by a publicly owned and operated sanitary sewage system, a privately owned and operated individual or communal septic system or other means? *

Private Services

11.2 b) Indicate the proposed type of water supply system – whether water will be provided to the retained land by a publicly owned and operated piped water system, a privately owned and operated individual or communal well, a lake or other water body or other means? *

Private Services

11.3 Hauled Sewage

If development is proposed on privately owned and operated individual or communal septic system, provide confirmation that there is adequate reserve sewage treatment capacity for hauled sewage (septage) resulting from the proposed development. See Table B below.

Both the retained and severed lands have existing septic field systems that are serviced by Bell's Septic in Kenora.

Table B – Sewage Disposal and Water Supply

	Type of Servicing	Reports/Information Needed
Sewage Disposal	a) Publicly owned and operated sanitary sewage system	Applicants must provide evidence in their application that there is municipal confirmation of sufficient uncommitted reserve sewage system capacity to service the development at the time of conditional consent.
	b) Public communal septic	Development generating effluent of more than 4,500 litres per day may need a servicing options study and hydrogeological report.
	c) Privately owned and operated individual septic system	If the requested change would permit development on individual or communal septic system and more than 4,500 litres of effluent would be produced per day as a result of the development being completed, a servicing options report and a hydrogeological report may be needed. If proposal would produce effluent less than 4,500 litres per day, a hydrogeological report may be needed.
	d) Privately owned and operated communal septic system	If the requested change would permit development on individual or communal septic system and more than 4,500 litres of effluent would be produced per day as a result of the development being completed, a servicing options report and a hydrogeological report may be needed. If proposal would produce effluent less than 4,500 litres per day, a hydrogeological report may be needed.
	e) Privy	Provide details on location and size of out-houses.
	f) Other	Please describe.
Hauled Sewage		If development is proposed on privately owned and operated individual or communal septic systems, applicant must provide evidence in the application showing either: i) municipal confirmation of sufficient uncommitted reserve sewage system capacity for treatment of septage resulting from the proposed development; OR ii) confirmation (i.e., letter) from a commercial enterprise (private provider) for hauled sewage (septage) indicating that capacity is available to accommodate the specific proposal.
Water Supply	a) Publicly owned and operated piped water system	Applicants must provide evidence in their application that there is municipal confirmation of sufficient reserve water system capacity to service the development at the time of conditional consent.
	b) Privately owned and operated individual well	Development on communal or individual well system may need a servicing options report and a hydrogeological report. Non-residential development on communal well system may need a hydrogeological report.
	c) Privately owned and operated communal well	Development on communal or individual well system may need a servicing options report and a hydrogeological report. Non-residential development on communal well system may need a hydrogeological report.
	d) Lake	A Permit to Take Water may be required. Contact your regional Municipal Services Office and the Ministry of Environment, Conservation and Parks office for guidance.
	e) Other water body	Please describe.
	f) Other means	Please describe.

Notes

1. To facilitate review of the application, submit a letter from the municipality to show concurrence (or not) with the recommendations in the servicing options report.
2. Before undertaking a hydrogeological report, consult MMAH for advice given the location of the subject land.
3. Where communal services are proposed (water and/or sewage), ownership of these services must be assumed by the municipality or a public body through a signed letter of acceptance.
4. To facilitate review of the application, submit a letter from the local health unit indicating that the site is developable and could accommodate the proposal.
5. A building permit is required for septic systems under Part 8 of the Building Code. See Appendix A.

12. Access

12.1 **The proposed road access** would be by: *

Other public road

Note: (See **Appendix A** for information on MTO Access Permits)
Certain type of development is not permitted on seasonally maintained roads.
Early consultation with your regional MSO is recommended.

12.2 Additional details on "**other public road**" **and "right-of-way"**

Would proposed **road access** be by:

☐ Crown road ☐ Local roads board ☑ Private road

12.3 If access to the subject land is by "other public road" or "right-of-way", or private road, indicate:

i) The owner of the land or road

ii) Who is responsible for maintenance

September 2026

Douglas Warkentin Property: Burma Road, Clearwater Bay, Lake of the Woods, Kenora District

Summer Resort Location EB1294 (PIN 42150-0634) and Part 2 Plan 23R 5438 (PIN 42150-2540) , East of the Township of Boys

Application for Consent- lot addition.

The Warkentin property is located on the Burma Road approximately 20 km west of Kenora, Ontario, comprised of location EB 1294 (PIN 42144-0634) and the acquired road allowance fronting this parcel (Part 2 Plan 23R 5438 PIN 42150-2540).

The adjacent property to the west of the Warkentin property is owned by Graham Malcolm Halliday, Linda Halliday Snowberg and Malcolm Karl Snowberg. PCL 18393 SEC DKF; PT Mining Location A15 Designated for Reference Purposes as Summer Resort Location EB 1295, Situate East of Township of Boys as in PA13553 (PIN 42150-0633) and the acquired road allowance fronting this parcel (PIN 42150-2539)

This application for consent is to sever approximately 90 square metres from the Warkentin property and add it to the Halliday/Snowberg property to accommodate a driveway and walking path that encroaches on the Warkentin property. The driveway is on PIN 42150-0634 and the pathway is on PIN 42150-2540.

See attached sketch and surveys.

Access to the properties is via the Burma Road, which is a private road maintained by the property owners along the road.

The properties are located in an area that has no organized municipality (unorganized territory).

The property is within the area designated as a Restricted Area Order, Ontario Public Lands Act Section 13 by the Ontario Ministry of Natural Resources and Forestry (OMNRF). The order was implemented by OMNRF in the absence of any other land management regime to protect water quality, and thus lake trout and habitat from additional uncontrolled development on private lands.

There is a work permit issued by the Ontario Ministry of Natural Resources and Forestry to Douglas Warkentin for replacement of a cottage and relocation of the road through the property that will continue to provide access to the Halliday/Snowberg property, as per attached sketch and work Permit.

Both properties have existing cottages, docks and septic fields. Water service is from the lake, electrical service from Hydro One. Domestic garbage is taken to the City of Kenora Waste Transfer Station. Bell's Septic in Kenora provides sewage tank pump-out services.

There is an existing mortgage on the Warkentin property. The applicant requests that the Ministry of Municipal Affairs and Housing grant an additional consent certificate, pursuant to section 50(16) of the Planning Act, to permit the partial discharge of the existing mortgage from the lands subject to the proposed lot addition.

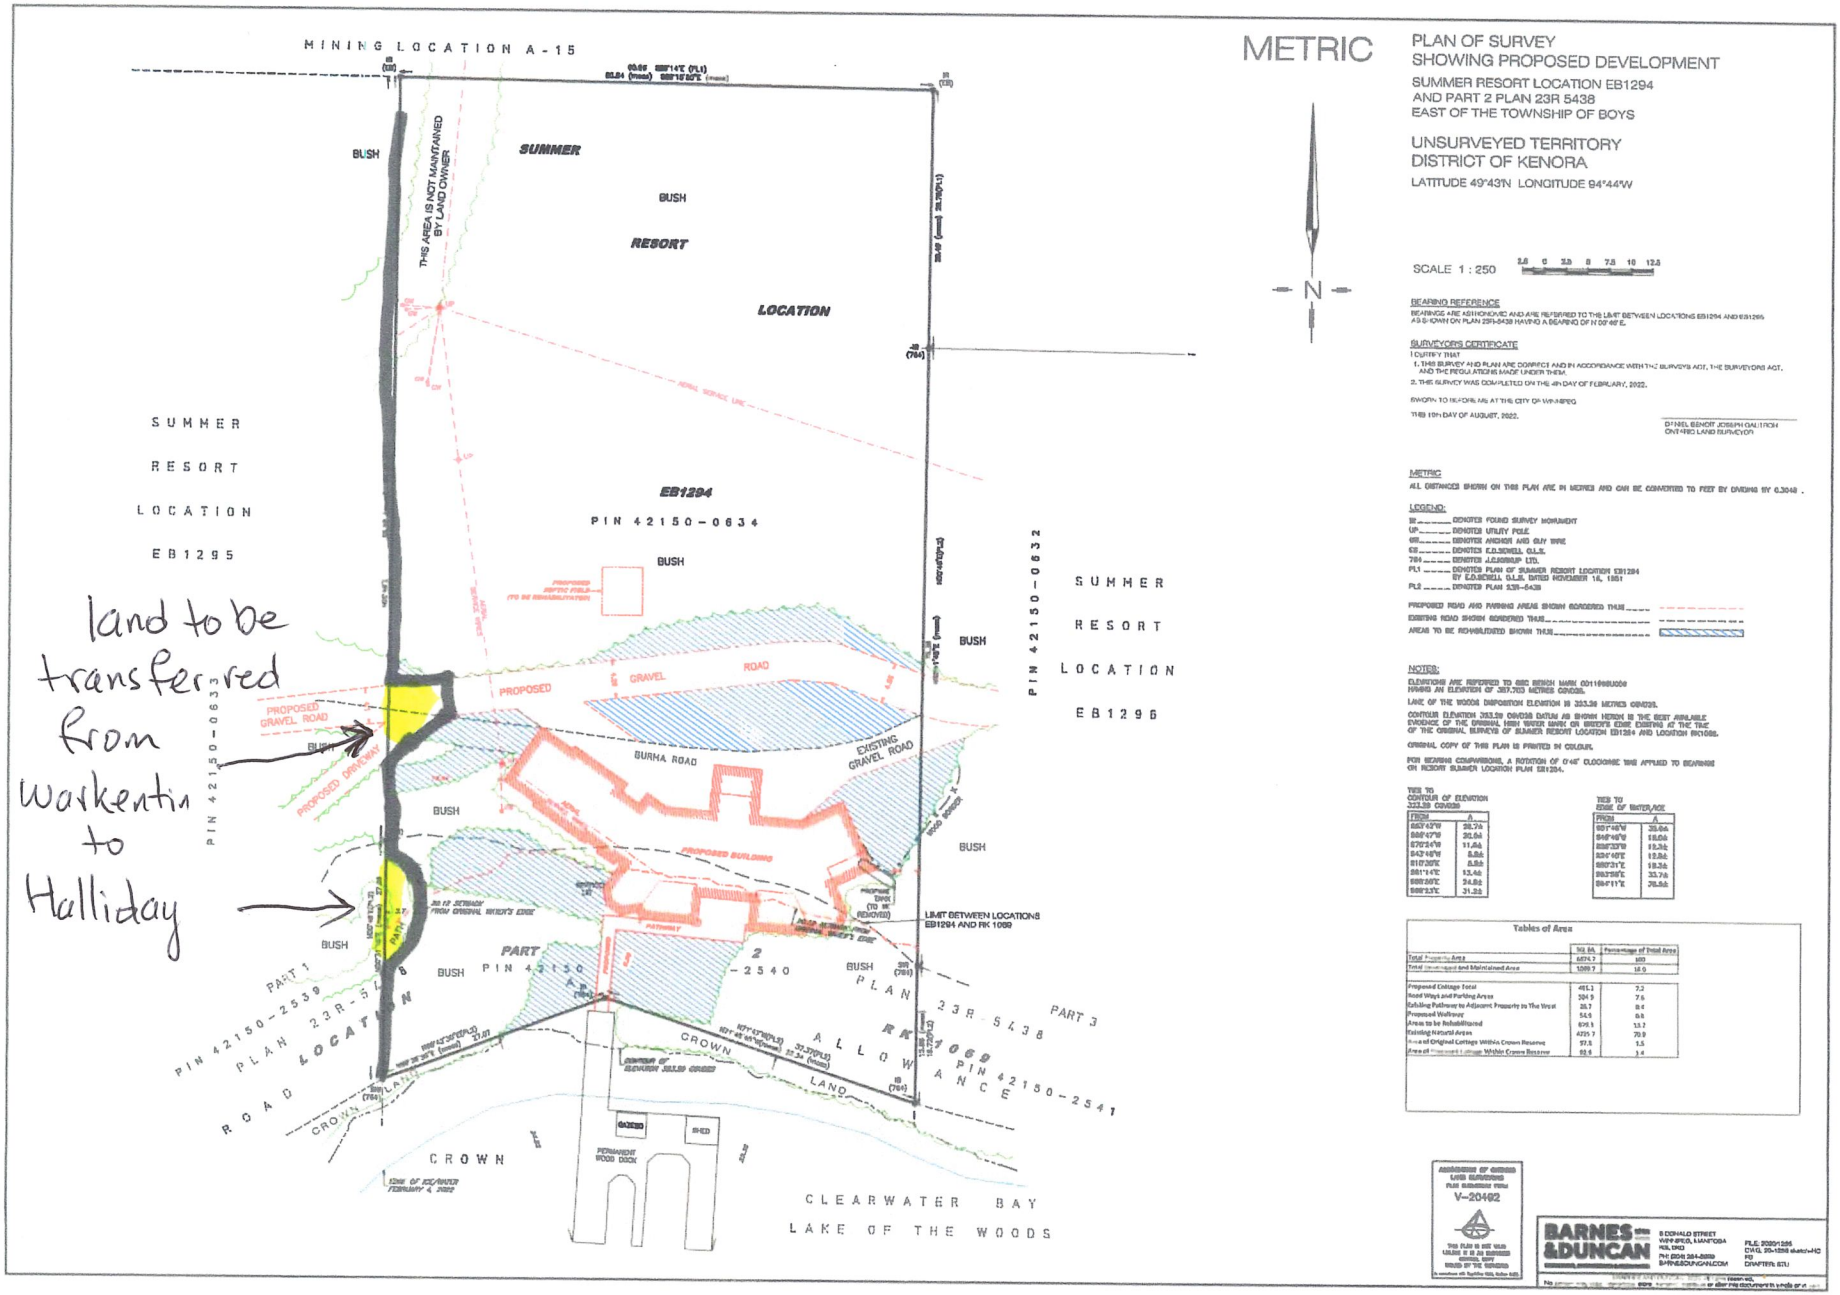

This application for consent is consistent with the Ontario Provincial Policy Statement, 2020 (PPS). Section 1.1.6 of the PPS addresses 'Territory Without Municipal Organization'. Section 1.1.6.1 states that 'On rural lands located in territory without municipal organization , the focus of development activity shall be related to the sustainable management or use of resources and resource-based recreational use (including recreational dwellings). Section 1.1.6.4 of the PPS again states that 'In areas adjacent to and surrounding municipalities, only development that is related to the sustainable management or use of resources and resource-based recreational uses (including recreational dwellings shall be permitted. Both properties will continue to be used for seasonal recreational cottaging.

Clearwater Bay is located within the Northern Peninsula Area (G2603) of the Ontario Ministry of Natural Resources and Forestry Crown Land Use Policy Atlas. Land use intent for this area is that general recreation will be the dominant use, and that future development proposals will recognize and accommodate the recreational role of the area. Recreational cottaging is a permitted use, and private cottage lots are suggested to have minimum frontages of 46 metres and depths of 90 metres. Both properties meet these requirements.

As this application for a lot addition will not change existing uses of recreational cottages on the properties, the potential impact on the exercise of Aboriginal or treaty rights is assessed to be minimal.
