Re: Proposed Amendments to the regulation of
Garden Suites + Secondary Suites (ARU)

We oppose all these thoughtless ideas to crowd every foot/inch of green space on private properties to build more housing.

Small villages/towns are losing their charms, space and identity.

More crowding creates more crime as we ~~all~~ already see happening.

It seems the public have no say in anything anymore and are being bulldozed by the big in control governments.

It seems we are being told what is going to go through regardless of what the residents think. As if we don't matter.

This used to be a lovely village, Toronto used to be a clean, decent place to live. Now crowding and crime are every day. Not a safe place anymore.

Yours Truly,

Donald + Roseann Lurbridge
