

LETTERS OF COMMENDATION TO THE GANARASKA CONSERVATION AUTHORITY
ON THE OCCASION OF ITS 35TH ANNIVERSARY

The Premier
of Ontario

Parliament Buildings
Queen's Park
Toronto Ontario

1981

On the occasion of the 35th Anniversary of the Ganaraska Region Conservation Authority, I am most pleased to extend the congratulations and best wishes of the people and the Government of Ontario.

The first conservation Authority to be established in our province, the Ganaraska Region Conservation Authority has served long and well the cause of conservation throughout the past 35 years.

years.

Dedicated to the protection, restoration and preservation of our natural resources, the many achievements of the Ganaraska Region Conservation Authority, among them the institution of the crucial flood control program for the Port Hope area, have made a lasting contribution to the wellbeing of our people, and stand as a testimony to the vision and commitment of all its members, both past and present.

The generations of today and tomorrow are forever in your debt, and I extend the heartfelt gratitude of the Government of Ontario and every good wish for the continued success of your endeavours of paramount importance to the future of mankind.

December 18, 1980

Ganaraska Region Conservation Authority
Port Hope, Ontario

Dear Chairman, Members and Staff:

It is my pleasure, on behalf of the Province of Ontario, to extend congratulations to your Authority on the occasion of your Thirty-fifth Anniversary.

As one of the pioneer Conservation Authorities in the Province, your Authority must feel proud to witness

As one of the pioneer Conservation Authorities in the Province, your Authority must feel proud to witness the province-wide resource management programs carried out by the thirty-nine Conservation Authorities across the Province, programs that have emerged from the idea first developed, expressed and existing today in your watershed. While programs have changed throughout the years, this partnership of local people and the Province brought together as a Conservation Authority is as relevant today as it was thirty-five years ago.

Last year's disastrous flood event must remind us all however, that the task is not complete and we must not relax our efforts.

Please accept my best wishes for continued success.

Yours sincerely,

James A.C. Auld
